PIONEER TELEPHONE COMPANY
SAC 522437
PROGRESS REPORT - JANUARY 1 TO DECEMBER 31, 2015

Pioneer Telephone Company ("Pioneer") is a rural incumbent local exchange carrier located in the eastern part of the state of Washington. Pioneer's study area consists of two exchanges, each with its own wire center and includes approximately 800 square miles. As of December 31, 2015, that study area had 680 working loops served by Pioneer. The two exchanges and wire centers are LaCrosse and Endicott. Within Pioneer's study area approximately 99% of subscribers have the capability of broadband speeds in excess of the 4 Mbps downstream and 1 Mbps upstream standard initially established in FCC 11-161.

In 2015, Pioneer worked with a neighboring incumbent local exchange carrier to provide the additional needed broadband capacity that permitted Pioneer to increase its broadband transport to the Internet backbone, which will allow Pioneer to offer a DSL broadband speed package with connectivity to the Internet that will assist in meeting the current FCC minimum requirements for 10Mbps downstream and 1Mbps upstream. Currently, Pioneer's fiber nodes are capable of the current FCC minimum 10Mbps downstream and 1Mbps upstream requirement. Pioneer will be electing the model base support from the recent USF Reform Order to bring its whole serving area in compliance with the 10/1 standard and future standard of 25/3.

Exhibit A reflects Pioneer's estimated Universal Service Fund ("USF") support amounts that will be received and Pioneer's plant investment additions and expenses for January 1 to December 31, 2015. Exhibit B sets out Pioneer's initial proposed plant additions for 2015 compared to actual plant additions for January 1 to December 31, 2015.

As set out on Exhibit B, additional plant additions for 2015 for Pioneer include middle mile transport including DSL Ethernet costs and equipment totaling \$70,189 to improve broadband capabilities in Pioneer's serving area. This project will benefit all of Pioneer's voice and broadband subscribers.

Pioneer approached the Department of the Army, U.S. Army Corps of Engineers for easement purposes to implement a Fixed Wi-Fi hot spot in their LaCrosse exchange for the Central Ferry area. The project costs amounted to \$48,153 and will benefit the Central Ferry community and the Port of Whitman County.

There are outlying areas in Pioneer's serving area where it is currently cost prohibitive to provide broadband service. This affects 6 customers, which represent less than 1% of Pioneer's total subscriber lines. These customers have not requested broadband services from Pioneer. Pioneer had looked at alternative methods of providing broadband services to these remote areas, such as the Wild Blue technology, but has found them not to be cost effective and not the quality or reliable service expected by Pioneer subscribers.

Pioneer sells DSL to an Internet Service Provider ("ISP") that is affiliated with it and provides the transport to the study area boundary for that ISP as well. See Line 710 of the FCC Form 481 displaying the retail pricing of broadband services offered by that affiliate. As of December 31, 2015, the affiliate had 299 broadband customers, which is a penetration rate of approximately 44% of Pioneer's working loops. The LaCrosse exchange has a broadband service take-rate of approximately 48% of its voice service customers and the Endicott exchange has a broadband service take rate of approximately 38% of its voice service customers. See Exhibit C for a wire center map of Pioneer's exchanges showing broadband speed capabilities and notes the 6 customers Pioneer is currently unable to provide the broadband services of 4 Mbps downstream/1Mbps upstream.

As they are known to Pioneer at the date of this report, other than the projects described on Exhibits A and B, the planned investment and expenses for the period also presented in Exhibit A, that Pioneer expects to use as basis to request federal high-cost support are expected to be approximately the same as initially projected, taking into account normal fluctuations in investments and expense levels. For 2016, Pioneer expects that levels of expenses will remain relatively the same as those it experienced in calendar year 2015, subject to the effects of inflation, other commonly experienced changes in cost of labor and materials, and depreciation on investment placed in service. Pioneer does not anticipate major adjustments in staffing levels for 2016.

Through the expenditures of the USF support received, Pioneer will be able to continue to provide voice and broadband services at a level that Pioneer believes meets the intent set forth in 47 U.S.C. § 254 of providing quality telecommunications services to customers in the service area for which Pioneer is designated as an ETC. Pioneer has made substantial investments over the past several years which allow it to provide quality telecommunications services to its customers in its designated ETC service area. Those expenditures and investments generally benefit all customers receiving the federal high-cost fund supported services from Pioneer within its designated ETC service area. By expanding its network over the past several years, Pioneer is capable of providing access to broadband services to 99% of Pioneer's designated ETC service area. Pioneer offers services that are comparable to services offered in urban areas at rates that are comparable to rates for such services in urban areas.

Processes and Procedures to Ensure Compliance with Service Quality Standards and
Consumer Protection Rules
Per FCC Form 481 Instructions

This document details the processes and procedures that Pioneer Telephone Company (“Pioneer”) follows to ensure compliance with service quality standards and consumer protection rules as laid out in FCC Form 481 Instructions.

For service quality standards that are affected by plant issues, Pioneer engineers and installs its plant and other facilities in such a way as to ensure, to the greatest extent possible, compliance with service quality standards that exist at the time that the plant and facilities are constructed.

In addition, employees are periodically briefed on service quality standards and consumer protection issues. In particular, if any set of issues appear to be prevalent, employees are given briefings on how to handle such issues. An example is the call completion problems that have arisen and the customer calls that are generated as a result. Although this is not a service quality problem caused by Pioneer, it does affect customers of Pioneer and, therefore, deserves the attention of Pioneer employees.

Pioneer also periodically reviews its operating procedures to be sure that those operating procedures are in compliance with service quality standards and that the operating procedures are not in violation of consumer protection rules. If questions arise, legal counsel is sought as needed.

If complaints are filed with Pioneer related to service quality standards or consumer protection rules, the complaint is immediately investigated, the matter tracked and any corrective action noted. This process ensures that problems are addressed and corrections made. It should be noted that Pioneer has received no customer complaints in the past year regarding service quality standards or consumer protection rules as they relate to the service offered by Pioneer other than call completion issues, which, as noted above, are not caused by Pioneer.

**(600) Functionality in Emergency Situations
Data Collection Form**FCC Form 481

<039> Contact Email Address - Email Address of person identified in data line <030>	dflan@pionnet.com
<600> Certify compliance regarding ability to function in emergency situations	Yes
<610> Descriptive document for Functionality in Emergency Situations	522437wa610.pdf

Line 610
Statement Demonstrating Functionality
In Emergency Situations

At Line 600 of FCC Form 481, Pioneer Telephone Company (“Pioneer”) certified that it is able to function in emergency situations as set forth in 47 C.F.R § 54.202(a)(2). This means that Pioneer has reasonable amounts of back-up power to ensure functionality without an external source, is able to reroute traffic around damaged facilities, and is capable of managing traffic spikes resulting from emergency situations. This statement will detail how Pioneer is prepared to ensure continued service in an emergency situation.

Pioneer has two back-up generators available with a minimum of a four hour power supply that is run on natural gas. One is for its host central office located in the LaCrosse exchange and the other is for its remote central office located in the Endicott exchange. In addition, it has portable generators available for other remote sites.

Pioneer has route redundancy for long distance service, E-911 trunking and SS7 signaling trunking.

Pioneer's outside plant is designed, engineered and built with sufficient capacity to handle traffic spikes resulting from emergency situations and has been able to do so in the past. Pioneer is in an area where severe weather strikes periodically and has been able to handle communication needs at those times and has the experience from those situations to be able handle such emergency situations in the future.

In the case of isolated groups of customers that may suffer damage due to a cable cut, Pioneer maintains sufficient staff and other resources to be able to put customers back in service in a very short amount of time. Pioneer's emergency service equipment is located within its exchange area and requires very little time to dispatch.

Affidavit of Publication

Pioneer Telephone Company participates in LIFE LINE/LINK UP:

Lifeline is a government benefit program that provides discounted telephone service to eligible low-income consumers. Only ONE Lifeline benefit is permitted per household, on either a wireline or a wireless service, but consumer may NOT receive a Lifeline discount on both.

Federal rules prohibit consumers from receiving more than one Lifeline service. A household is everyone (including children & people who are not related to you) who lives in your home and shares income and household expenses.

Lifeline Residential discount rate is currently set at \$9.25.

Only low-income consumers with proof of eligibility are qualified to enroll.

To qualify, subscribers must either have an income that is at or below 135% of the

Federal Poverty Guidelines OR participate in one of the following programs:

- Medicaid
- Supplemental Nutrition Assistance Program (Food Stamps or SNAP)
- Supplemental Security Income (SSI)
- Federal Public Housing Assistance (Section 8)
- Low-Income Home Energy Assistance Program (LIHEAP)
- Temporary Assistance to Needy Families (TANF)
- National School Lunch Program's
- Free Lunch Program
- Bureau of Indian Affairs General Assistance
- Tribally-Administered Temporary Assistance for Needy Families (TTANF)
- Food Distribution Program on Indian Reservations (FDPIR)
- Head Start (if income eligibility criteria are met)
- State Assistance Programs (if applicable)

Subscribers have an obligation to recertify their eligibility every year and should respond to their Lifeline Provider's attempts to recertify eligibility. Subscribers must certify that they remain eligible to participate in the Lifeline program once each calendar year. Subscribers who fail to recertify their eligibility will be de-enrolled from the Lifeline Program.

Line 1222 Details on the number of minutes provided as part of the plan.

Pioneer provides its lifeline customers a flat rate local service. There is no measured local service provided, so the number of minutes provided is not necessary.

Line 1223 Additional charges for toll calls, and rates for each such plan.

Pioneer provides access to toll service providers for its lifeline customers. The lifeline customer has to choose its own toll service provider, so no additional charges are noted or required by Pioneer.

Milestone Certification
Pioneer Telephone Company
LaCrosse, Washington
Study Area Code 522437

Pioneer Telephone Company, SAC 522437, ("Company") hereby certifies as required by 47 CFR § 54.313 (f)(1)(i) for the FCC Form 481 program year 2017 that it is taking reasonable steps to provide upon reasonable request broadband service at actual speeds of at least 10 Mbps downstream/1 Mbps upstream, with latency suitable for real-time applications, including Voice over Internet Protocol, and usage capacity that is reasonably comparable to comparable offerings in urban areas as determined in an annual survey, and that requests for such services are met within a reasonable amount of time, if requested.

No such request has been received during the calendar year 2015 or during 2016 up to the date of this letter.

Dated this 22nd day of June, 2016 at LaCrosse, Washington.

4005 Rural Broadband Experiment

Authorized Rural Broadband Experiment (RBE) recipients must address the certification for public interest obligations, provide a list of newly served community anchor institutions, and provide a list of locations where broadband has been deployed.

Public Interest Obligations – FCC 14-98 (paragraphs 26-29, 78)

Please address Line 4001 regarding compliance with the Commission's public interest obligations. All RBE participants must provide a response to Line 4001.

4001. Recipient certifies that it is offering broadband to the identified locations meeting the requisite public interest obligations consistent with the category for which they were selected, including broadband speed, latency, usage capacity, and rates that are reasonably comparable to rates for comparable offerings in urban areas?

Community Anchor Institutions – FCC 14-98 (paragraph 79)

4003a. RBE participants must provide the number, names, and addresses of community anchor institutions to which they newly deployed broadband service in the preceding calendar year. On this line, please respond (yes – attach new community anchors, no – no new anchors) to indicate whether this list will be provided.

If yes to 4003A, please provide a response for 4003B.

4003b. Provide the number, names and addresses of community anchor institutions to which the recipient newly began providing access to broadband service in the preceding calendar year. Name of Attached Document Listing Required Information _____

Broadband Deployment Locations – FCC 14-98 (paragraph 80)

4004a. Attach a list of geocoded locations to which broadband has been deployed as of the June 1st immediately preceding the July 1st filing deadline for the FCC Form 481. Name of Attached Document Listing Required Information _____

4004b. Attach evidence demonstrating that the recipient is meeting the relevant public service obligations for the identified locations. Materials must at least detail the pricing, offered broadband speed and data usage allowances available in the relevant geographic area. Name of Attached Document Listing Required Information _____
