Dear UTC records UTC,

Dear Commissioners,

I am a PSE ratepayer. As such, I think the UTC ought to call for shared sacrifice from the utilities. This means using some of the corporate profits to protect ratepayers families most in need from COVID costs, illness, unemployment, and underemployment. This, in turn, means rejecting the utilities' deferred accounting petitions, which, as I understand it, include fees prohibited by Governor Inslee.

I further understand that these petitions will guarantee millions in profit for shareholders and executives. This, at a time when utilities have not apparently been financially troubled by the pandemic.

In short, show some compassion!

Regards,
Joseph Hiss
