Docket UG-170929

Comments regarding proposed Rate Increases.

Be advised that from time to time, it is to be expected that rates may need to be increased, consider the position of the Senior Citizen who lives on fixed income.

Hello, I am Helen Breedlove, I DO live on only Social Security Income. My income for 2018 went up \$5.00 a month. Medicare automatic deduction increased \$20.00 month.

Cascade Natural Gas has no policy for Senior Citizen discounts. It is truly painful to look at an increase during these trying times.

As it is apparent that the economy has stabilized, and there are new TAX advantages happening for businesses, working families are benefiting. However, please consider the position of Seniors who have no way to increase their income.

If you approve this proposed rate increase, please consider forcing company's to create a policy of discounts for Senior Citizens.

Thank You,

Helen Breedlove
