Dear Sir:

Some years ago Natural Gas was very reasonable compared to electricity.

I am retired & widowed & I only burn the pilot light in my bedroom at a cost of \$15.00/month, but used to be \$7.00. If I'm sad they want a rate increase. There should be special rates for senior citizens on fixed incomes. I live in a historical home and pinch pennies daily. Many states utilize gas historical homes. Utility breaks not in Washington.

* Need lower rates for seniors & historical homes.
No increase please!
