Re: Boomerang Wireless, LLC d/b/a enTouch Wireless;  
UT-121610

Dear Steven:

This notice is being provided to inform the Washington Commission and Staff that effective March 31, 2017, Boomerang Wireless, LLC d/b/a enTouch Wireless will no longer utilize the underlying wireless network of AT&T Mobility in Boomerang's provision of Lifeline services in the State of Washington.

Boomerang's 175 affected customers are being provided a 30-day advance notice of this change and will be given the following two options: 1) to continue to receive Boomerang's Lifeline services on the network of another underlying carrier, Verizon Wireless; or 2) to select another Lifeline provider in the State of Washington. Customers selecting the option to remain with Boomerang will receive an entry level smartphone and will have the opportunity to port their current phone number.

Thank you for your courtesy and assistance. Please feel free to contact me if you have any questions or need additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "J. Andrew Gipson".
