Deborah,

You had a question in conjunction with our AFOR DSL Plan regarding why the Deer Park and Belfair wire centers' availability percentages differ slightly between Confidential Attachment 1a and the Plan as filed. The answer is that Confidential Attachment 1a contains percentages based on 12/06 and 12/07 data in contrast to the plan percentages which are based on 8/07 data. These ratios can change every month as lines are lost and as outside plant changes.
