UTC:

From all that I have read, you are doing everything you can to stifle small business. Let me make it clear: "Jobs are created by entrepreneurs and by business owners - NOT by government bureaucrats." Comply with the edicts of our legislature and get out of the business of other peoples business. You are hurting a thriving small business (probably many) that I use - as do many. In this stressed economy, you should be doing just the opposite of your current tactics and adopting policies which enhance and encourage small business.

If we lose the Whidbey-Seatac Shuttle because of your interference, Olympia will be encouraged to have all of you fired.

R.W. McConchie
