

[12:52 2020/22/5 PM] Andrews, Amy (UTC):

Good Afternoon! The workshop will begin at 1 p.m. Today's presentations may be found on the Commission's website at

<https://www.utc.wa.gov/docs/Pages/DocketLookup.aspx?FilingID=191023>.

[1:00 2020/22/5 PM] Andrews, Amy (UTC):

Please mute your computer microphones and your phones. Thank you!

[1:06 2020/22/5 PM] Snyder, Jennifer (UTC):

The presentation is available in docket UE-191023.

[1:25 2020/22/5 PM] Amanda Sargent:

Can you let a colleague in from the lobby who dialed in on a phone?

[1:26 2020/22/5 PM] Andrews, Amy (UTC):

Completed.

[1:29 2020/22/5 PM] Griffith, Kate (UTC):

Quick plug that the 2020 census is on-going! You can visit 2020census.gov for more information.

[1:43 2020/22/5 PM] Simon ffitich:

Ask: What's the anticipated next step in the IRP rulemaking?

[1:50 2020/22/5 PM] Simon ffitich:

Ask: Please elaborate/clarify on the enforcement options Staff envisions for 040(music) under 480-100-680.

[1:51 2020/22/5 PM] Andrews, Amy (UTC):

We had to unmute all phone lines. Please make sure you mute your phones. Apologize for the inconvenience.

[1:51 2020/22/5 PM] cathy:

Ask: Can you explain what the middle box labeled "local areas" in the Utility Resources graphic is meant to represent?

[1:55 2020/22/5 PM] John Rothlin:

The statutory provisions that establish the CEIP are specific that it is a plan to meet the

standards in 19.405.040(1) and 050(1). The law does not embed the provisions of 040(music) into the CEIP but rather in IRP with new language added into 19.280.030. Isn't the demonstration of equity, health, resilience and security intended to be established in the IRP process and outside the scope of the CEIP as prescribed in 19.405.060?

[1:58 2020/22/5 PM] Ben Farrow:

Ask: Does staff anticipate that each utility will develop the indicators with their advisory groups and potentially other experts, or does staff anticipate that the rules will reflect general indicators and the utilities may refine these in their CEIPs?

[1:58 2020/22/5 PM] Simon ffitich:

So everything except the "admin penalty" under 090 would be potentially available for 040(music)?

[1:59 2020/22/5 PM] John Rothlin:

[2:02 2020/22/5 PM] Kelly Hall:

Ask: Related to compliance and indicator questions, does UTC anticipate determining compliance based on the indicators that are determined by the utility and stakeholders? And would UTC approve the indicators determined by the utility?

[2:23 2020/22/5 PM] Andrews, Amy (UTC):
Thank you, Andrea.

[2:24 2020/22/5 PM] Griffith, Kate (UTC):
Thanks all for your thoughts on equity and community engagement. I'd like to remind everyone of/plug the questions we asked at the May 5 public participation workshop, which included a presentation on best practices. You can find the materials in the link Jennifer shared earlier. Please feel free to continue thinking through those question, or add additional thoughts, and submit with your comments after this workshop too.

[2:28 2020/22/5 PM] Andrea Axel:
(No raised hand) Thanks Kate. The public participation workshop was useful as well! The interesting additional perspective was that the OR one was designed by and led by community based organizations.

[2:29 2020/22/5 PM] Aiko Schaefer, Front & Centered:

Ask: How are commissioners able to get guidance on equity and to provide continuity across utilities. What are the perspectives of creating a Equity Advisory Board that works directly with the commission?

[3:04 2020/22/5 PM] Nicolas Garcia:

Question: The statute at 040(music) appears to couple the "equitable distribution of ... benefits" with a mandate that utilities "... ensure that all customers are benefiting from the transition to clean energy." Does the UTC envision that utilities will incorporate this latter statutory directive into their planning processes and/or assessments of potential equity measures, either individually or collectively?

[3:09 2020/22/5 PM] Nicolas Garcia:

okay thanks
