Registration as a Telecommunications
Company and Classification as a
Competitive Telecommunications Company
of :

BCGI Communications Corp.
Cognigen Switching Technologies, Inc.
International Exchange Communications,
Inc. d/b/a IE Com
OnePoint Communications– Colorado, LLC
d/b/a Verizon Avenue

ORDER RESCINDING REQUIREMENT
TO SUBMIT ANNUAL REPORTING ON
PREPAYMENTS COLLECTED FROM
CUSTOMERS

DOCKET NO. UT-991972

DOCKET NO. UT-001462

DOCKET NO. UT-000142

DOCKET NO. UT-010776

BACKGROUND

- 1 In its Order granting the petitions for registration of the above-named telecommunications companies the Washington Utilities and Transportation Commission (“Commission”) waived the requirement in WAC 480-120-058 for each company to post a performance bond sufficient to cover any customer prepayments or hold customer prepayments in escrow or trust but each company was required to file an annual report of outstanding prepayments.
- 2 Effective June 17, 2002, the Commission repealed WAC 480-120-058, and enacted WAC 480-120-127, which removes the mandatory customer prepayment protections. Given the change in the Commission’s regulations, the Commission finds that it is consistent with the public interest to rescind the requirement of the above-named companies to provide a bond sufficient to cover customer prepayments or hold such prepayments in escrow or trust. The Commission retains the jurisdiction to require any of the above-named companies to protect customer prepayments if the Commission finds such requirement to be in the public interest.

DISCUSSION

- 3 Each of the above-named telecommunications companies petitioned for registration as a telecommunications company in the state of Washington pursuant to RCW 80.36.350. Each company proposed to offer prepaid telecommunications services pursuant to *former* WAC 480-120-052.
- 4 *Former* WAC 480-120-058 required telecommunications companies collecting customer prepayments to file a report with the Commission within 15 days of the end of each calendar quarter detailing, with respect to Washington operations: (1) the total outstanding balance of customer prepayments; (2) the dollar amount of prepayments sold during the reporting period; (3) the depleted usage of prepaid services during the reporting period; and (4) the total outstanding prepaid balances at the end of the reporting period. The Commission waived the requirement for quarterly reports. Instead, they were required to file an annual report within 31 days after each calendar year.

5 On May 14, 2002, in Docket No. UT-991922, the Commission entered an order amending, repealing, and adopting rules permanently. In that order, the Commission repealed WAC 480-120-058.

6 Also on May 14, 2002, in Docket No. UT-991922, the Commission adopted WAC 480-120-127, which provides that the Commission, as a precondition to registration, may require a telecommunications company to file a performance bond sufficient to cover any prepayments the company collects from its customers or order that such prepayments be held in escrow or trust, as stated in RCW 80.36.350.

7 Because WAC 480-120-058 is repealed, the Commission finds that it is consistent with the public interest to remove the annual reporting requirements of each of the above-named companies regarding customer prepayments.

8 The Commission retains jurisdiction under RCW 80.01.040 to require any of the above-named telecommunications companies to provide a performance bond sufficient to cover any customer prepayments or require any of the above-named companies to deposit such prepayments in escrow or trust if the Commission determines that such requirement would be in the public interest.

9 This matter was brought before the Commission at its regularly scheduled open meeting on September 25, 2002. The Commissioners, having determined this action to be consistent with the public interest, directed the Secretary to enter this order.

FINDINGS OF FACT

10 Having considered the prior orders relating to each named telecommunications company and based on the foregoing discussion, the Commission now makes the following summary findings of fact. Those portions of the above discussion that include findings pertaining to the ultimate decisions of the Commission are incorporated by reference.

- 11 (1) The Washington Utilities and Transportation Commission is an agency of the State of Washington vested by statute with the authority to regulate telecommunications companies.
- 12 (2) The above-named telecommunications companies are registered to provide telecommunications services for hire to the public in the state of Washington.
- 13 (3) Rescinding the customer prepayment reporting requirements imposed on each of the above-named companies is consistent with the public interest.
- 14 (4) By having previously waived the requirements regarding protection of customer prepayments required by *former* WAC 480-120-058, the Commission in no way endorses the financial viability of the above-named companies nor the investment quality of any securities they may issue.

CONCLUSIONS OF LAW

- 15 Having discussed above all matters material to our decision, and having stated general findings and conclusions, the Commission now makes the following summary conclusions of law. Those portions of the preceding detailed discussion that state conclusions pertaining to the ultimate decisions of the Commission are incorporated by this reference.
- 16 (1) The Washington Utilities and Transportation Commission has jurisdiction over the parties and subject matter of this proceeding under RCW 80.01, RCW 80.04, RCW 80.36, WAC 480-120, and WAC 480-121.
- 17 (2) Pursuant to RCW 80.04.210, the Commission's prior orders regarding each of the above-named telecommunications companies should be changed to rescind the annual reporting requirements regarding customer prepayments.
- 18 (3) The Commission retains jurisdiction under RCW 80.01.040 to require any of the above-named telecommunications companies to provide a performance bond sufficient to cover any customer prepayments or require any of the above-named companies to deposit such prepayments in escrow or trust if the Commission determines that such requirement would be in the public interest.

ORDER

THE COMMISSION ORDERS:

- 19 (1) The Commission's prior orders regarding each of the above-named telecommunications companies are changed to rescind the annual reporting requirements regarding customer prepayments.

DATED at Olympia, Washington, and effective this 25th day of September, 2002.

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

CAROLE J. WASHBURN, Secretary
