RE: UW-021667 Thomas Water Service / Meadow Ridge Rate Increase

This letter is being written due to my concern of the proposed rate increase to the Meadow Ridge home owners. As explained in my earlier letter dated January 19, 2003 (marked exhibit 15 by Meadow Ridge board members on their submittal for January hearing) that I work for Thomco Const., Inc. Thomco is an earthwork and utilities contractor. I am an owner/estimator/project manager for the company. I have lived in Meadow Ridge since January 1978 and am quite familiar with the original water system. I helped install the original water system when it was owned by my father Myron Thomas. As an estimator/project manager. I am used to reviewing and approving invoices for construction. Though not directly involved in the recent development of Kackman Creek, I was asked by Tom McDermott to give a proposal for work on the development. This gave me familiarity with the project.

After reviewing the invoices submitted by Thomas Water Service, several items appear to be billed unjustly. This would basically stem from the fact that a 25% Meadow Ridge / 75% Kackman Creek(Ironwood) split was setup and even that split in the billing of the invoices was not followed. When Items involved specifically Meadow Ridge then Meadow Ridge was billed 100%. When joint work done or only Ironwood work then the spilt came into effect. Meadow Ridge was an established water system. Kackman Creek(Ironwood) was a new development needing new designs and public hearings to be approved. Meadow Ridge has had very minimal improvements to the system in the last 10 years and did not need additional public hearings. Kackman Creek is a totally new system and has over three times more water services.

\$36,944.37 Total of items noted that are over billed on Thomas Water Capitol Cost Summary

The allocations of the listed invoices were not properly charged. Meadow Ridge was unjustly over billed in these invoices. I would be willing to meet with you to discuss these items.

Sincerely,

**Edmund M Thomas**

Cost Estimate

Re: Meadow Ridge Water System Improvements

Note: Cost estimate is based on asbuilt drawings provided by Snohomish County PUD and drawn by Cascade Surveying & Engineering dated 4/29/97 sheets 1 thru 3 of 3. The purpose of this proposal is to verify charges asigned by Thomas Water Service regarding rate increase proposal to Meadow Ridge Homeowners. The following proposal is based on improvements added to the existing water service and compared to what was charged.

| Account 343 Transmission & Distribution Plant: Transmission and Distribution Mains |          |       |                  |    |          |            |              |  |

estimate overbilled under transmission & distribution mains \$72,031.18

Note: Prices under billed column were based on information from Washington Water Service Company in letter to Ms. Carole Washburn, Secretary. Dated December 17, 2002. May it be noted that my father stated to me (see enclosed leter) that he only received \$10,000 in the acquistion of Thomas Water Service and I noticed \$4,395.20 / \$9,339.80 / \$1,489.70 / \$2,847 / \$8,241 / \$30,217 for a total of \$56,529.70 billed under several columns.

Thomco Construction is an earthwork and utilities contractor. I am an owner and estimator for the company. I have lived in Meadow Ridge since January 1978 and am quite familiar with the original water system. I helped install the original system when it was owned by my father Myron Thomas. This proposal is an accurate estimate based on these asbuilts drawings provided by the PUD and my experience working in the construction field.

Excluded: Meter Installation & Hydrant (work preformed by PUD)

Sincerely,

Thomco Const., Inc. By
