DOCKET NO. UT-041239

DECLARATION OF RICHARD A. FINNIGAN

13 I, Richard A. Finnigan, declare under penalty of perjury under the laws of the state
14 of Washington, that the following statements are true and correct to the best of my
15 knowledge:

- 16 1. Attached as Exhibit 1 to this Declaration is a true and correct copy of the WebTel
17 home page available at www.webtel.net. The web page states that unlimited in-
18 state calling is available for \$14.95 per month for residential service and \$29.95 per
19 month for business service. The home page states that "All you need is a telephone
20 and telephone service from your local company" to use the WebTel service.
21 Customers are told, "You do not need an Internet account or a computer."
22 2. Attached as Exhibit 2 are true and correct copies of excerpts from WebTel's web
23 page that provide its in-state calling coverage.

26 DECLARATION OF
RICHARD A. FINNIGAN - 1

Law Office of
Richard A. Finnigan
2405 Evergreen Park Dr. SW
Suite B-1
Olympia, WA 98502
(360) 956-7001

- 1 3. Attached as Exhibit 3 are true and correct copies of portions of WebTel's home
2 page that describe various calling plans that are available to customers.
- 3 4. Attached as Exhibit 4 are true and correct copies of excerpts from the Frequently
4 Asked Questions portion of the WebTel web site. This information includes
5 confirmation that all that is required to use WebTel's service is a telephone.
6 WebTel describes its service as follows: "First, you dial a WebTel™ local-access
7 number to enter our system. Once the number is verified, a voice prompt will
8 instruct you to enter the area code and phone number of the person you want to call-
9 -no need to dial a "1" first. The WebTel Voice over Internet Protocol (VoIP)
10 gateway server seamlessly sends this call information over the network to the
11 gateway server that's closest to your call's destination. The VoIP gateway server at
12 the destination site dials the phone number you've entered. After the connection is
13 established both you and the person you're calling will be talking over the
14 WebTel™ network. To use WebTel™ services, you must establish a VoIP account
15 with us, and the number you're calling must be within the WebTel network-
16 coverage area."
- 17 5. Attached as Exhibit 5 are true and correct copies of excerpts of the testimonial
18 portion of the WebTel web site.
