REPORTS AS REQUIRED BY WAC 480-123-070 AND WAC 480-123-080

Beaver Creek Telephone Co. dba Timberline Telecom (the "Company") hereby submits the following reports in accordance with WAC 480-123-070 and WAC 480-123-080¹.

Report 1: WAC 480-123-070 (1)(a): Attached is a copy of the NECA Report 3060-L for the calendar year 2006 that the Company has reported as the basis for support from the federal high cost fund. To date, USAC has failed to provide Timberline Telecom any Universal Support dollars.

Report 2: WAC 480-123-070(1)(b): Although the Company has received no Universal Service funding, the Company has improved service reliability by installing a generator for the Central Office. This allows 100% auxiliary power in addition to the battery backup system already in place.

The Company has also continued to provide maintenance to the buried cable throughout 2007 as needed due to weather or state road issues.

Report 3: WAC 480-123-070(4): The Company reports that during calendar year 2006, the Company did not receive from the Federal Communications Commission or the Consumer Protection Division of the Office of the Attorney General of the State of Washington any complaints against the Company made by the Company's customers.

Report 4: WAC 480-123-070(7): The Company reports that a newspaper advertisement detailing basic supported services as well as the Lifeline and Link-Up programs was run in December, 2006 in The Daily Herald. The Company expects to continue to advertise these services throughout 2007.

¹ It is the Company's understanding that it is not required to submit the reports described in WAC 480-123-070(2) and (3).

Report 5: WAC 480-123-080(1)(b): Upon receipt of Universal Support dollars, the Company expects investments and expenditures to remain fairly consistent with prior years in relation to maintenance, replacement and upgrades to our plant. Customers will continue to receive the high level of telecommunications service that they have experienced over the past year with the possibility of increased services.

Report 6: WAC 480-123-080(2): Upon receipt of Universal Support dollars, the Company expects investments and expenditures to remain fairly consistent with prior years in relation to maintenance, replacement and upgrades to our plant. The Company has not yet started the budgeting process for 2008 and therefore does not have final numbers prepared for investments and expense levels for 2008. Customers will continue to receive the high level of telecommunications service that they have experienced over the past year with the possibility of increased services.
