Dear Mr. Greene:

RE: 2009 Hydrogen Pipeline Standard Inspection Response Letter

Thank you for your letter dated December 8, 2009 addressing the findings from our inspection of the AkzoNobel-Eka Chemicals, Inc. Moses Lake facility. We have reviewed your letter of intent and accept your response.

We cannot close this docket for this inspection until we have had an opportunity to review and approve the revised Alcohol Misuse and Anti Drug plans you estimated will be completed by April 2010. I encourage you to maintain contact with commission staff as you make the necessary plan revisions so we can be sure that the final submittal meets our expectations.

If you have questions or comments, please contact Joe Subsits at (360) 664-1322.

Sincerely,

David D. Lykken
Pipeline Safety Director
