INLAND TELEPHONE COMPANY

SCHEDULE NO. 12
CALLING FEATURES (Continued)

DEFINITIONS: (Continued)

CALL WAITING/DELAYED CANCEL

Allows a subscriber with the Call Waiting feature enabled and invoked to disable the Call Waiting feature for the next call to be received. This feature can be used to cancel call waiting when calling a dial-up/dial-back computer line. In the dial-up/dial back call sequence, the subscriber calls a computer system, enters a personal identification code and then hangs up. The computer then causes a call to be placed back to the subscriber and establish the data connection. Since normal Cancel Call Waiting is operative on the current call only, Delayed Cancel Call Waiting must be invoked to prevent possible interference with the second call by the call waiting tone.

DENY ORIGINATION

This feature denies origination of all calls from a line.

DENY TERMINATION

This feature denies termination of all calls to a line.

HOT LINE – FIXED

Calls originated from a line equipped with this feature are automatically routed to a predetermined specified by the Subscriber to the Company. The number must be specified in standard called number format, but the number of digits that can be included in the format may be limited, depending upon the capabilities of the originating station's service central office.

LAST CALL RETURN

Allows a customer to dial a code that will cause the feature to automatically redial the number of the last incoming call to that line, whether the call was answered or not. The customer does not need to know the number of the calling party. If delivery of the original calling party's number was subject to blocking by the calling party or is otherwise not available, the feature will not return the call. If the called number is busy, the feature will redial the called number for a limited period of time. A tone alerts the customer when the called line is available.

The customer is responsible for payment of toll charges that may occur when using the Last Call Return feature.

INLAND TELEPHONE COMPANY

SCHEDULE NO. 16

CONNECTION WITH CUSTOMER-PROVIDED EQUIPMENT (Continued)

CUSTOMER-PROVIDED COMMUNICATIONS SYSTEMS (Continued)

GENERAL REGULATIONS: (Continued)

Customer-provided terminal equipment or communications systems which serve a location which the Company considers impracticable to serve because of hazard or inaccessibility may be connected with telecommunications service only by means of registered or grandfathered connecting equipment furnished by the customer (unless the customer-provided terminal equipment and/or communications system has been registered in accordance with Part 68 of the FCC Rules and Regulations).

The customer indemnifies and holds the Company harmless against claims for infringement of patents arising from combining such equipment or system with, or using it in connection with, facilities of the Company; and against all other claims arising out of any act or omission of the customer in connection with facilities provided by the Company.

The customer must provide all the electrical power necessary for the operation of customer-provided communications systems equipment and associated lines to the point of interconnection.

The customer must provide and install all wiring from the point of connection with Company facilities, i.e., at the jack or protective connecting arrangement, and will make the actual connection to the Company facilities.

The Company will not be liable for damages arising out of injuries to persons or property from voltages or currents transmitted over the facilities of the Company caused by customer-provided terminal equipment or protective circuitry.

INLAND TELEPHONE COMPANY

SCHEDULE NO. 100

CONCURRENCES (Continued)

INTRASTATE ACCESS SERVICE: (Continued)

EXCEPTIONS: (Continued)

- 4.(a) For the rate elements and/or rate sub-elements set forth below, the following rates and charges apply instead of the corresponding rates and charges set forth in WECA Tariff WN U-2. For any rate element or rate sub-element not specifically listed below, the rates and charges set forth in WECA Tariff WN U-2 apply. Entries in the "Section" column refer to the section designations in WECA Tariff WN U-2.
- (b) Notwithstanding any provision of WECA Tariff WN U-2 to the contrary, the rates and charges specified below for Local Transport Facility under Section 5.8.1(A) ("Local Transport") shall apply per BHMC, per line or trunk, or per access minute, as indicated below, rather than per BHMC (line, trunk or access minute) per mile, and shall apply without regard to the application of any billing percentage ("BP") or interconnection point factor ("ICP Factor"). The said Local Transport Facility rates and charges apply based upon the Company end office location at which the local transport facility originates or terminates.
- (c) Any language contained in WECA Tariff WN U-2 pertaining to the calculation and application on a per mile basis of rate elements and/or rate sub-elements set forth in Section 5.8.1(A) shall not apply; provided, however, that, where appropriate, such language shall be deemed modified to the minimum extent necessary to render it consistent with the matters set forth in subparagraph (b) of this Paragraph 4 and with the rates and charges specified below under Section 5.8.1(A), and such language shall apply as so modified.
