Dear Customer:

Peninsula Sanitation Service, Inc. has filed a request with the Washington Utilities & Transportation Commission (“Commission”) to increase solid waste collection rates in Pacific County. If approved, the new rates will become effective May 1, 2012.

This increase is to cover increased operating costs for labor, parts and equipment, maintenance, employee benefits, fuel and various other items which have risen over the past nineteen plus years. This is the first general rate increase since an increase approved January 1993. Overall, this rate filing requests an average of approximately 32% increase in rates. In contrast, the consumer price index has increased almost 59% since January 1993.
