RE: Washington Utilities and Transportation Commission v IPDATASTREAM, LLC

IP Datastream's response to Sandra Walsh's letter dated June 17th, 2015

UT-150826

Dear Mr. King:

On June 5th I received the penalties letter via POSTAL MAIL and immediately contacted the office where Pam Callea explained that on the 1st of May she sent me an email requesting the missing financial information. I did not receive that email or any other correspondences until the late fee of \$1000.00 was sent to me. Within an hour I provided the missing information per her request on the email she sent me on the 5th after my conversation with her. This information was submitted via the online system and for some reason did not get attached to the submission.

Sondra Walsh mentions that all correspondences were done via email which is untrue and I responded to the letter in the mail. She also explains that in 2012 I had prior mitigation which is only slightly true since I did have to pay fees, just a smaller amount.

We did not have to pay any fees because we don't sell that much as it is, a \$1000.00 is months of profit for a small company and I will from now on submit our paper work 60 days before the due date and send it via postal mail.

I appreciate the opportunity to explain in better detail the issue. If you have any further questions you can reach me by telephone at 503-410-9169.

Torrie
