NOTICE WITHDRAWING PENALTY

RE: All Alaska Thru Van, Inc., Commission Staff's Request to Withdraw Penalty Assessment, Docket TV-150874

TO ALL PARTIES:

On May 26, 2015, the Washington Utilities and Transportation Commission (Commission) issued and served a Penalty Assessment against All Alaska Thru Van, Inc. (All Alaska or Company) in the amount of \$1,000, alleging violations of WAC 480-15-480, which requires household goods carriers to file annual reports by May 1 each year.

On July 6, 2015, All Alaska responded to the Commission's penalty assessment and requested mitigation. The Company explained that it filed its report on April 30, 2015, and left certain fields blank in lieu of "zeros." The Company resubmitted a corrected report on May 7, 2015.

On July 8, 2015, Commission Staff filed a response recommending the Commission withdraw the \$1,000 penalty because Staff failed to process the report as complete on May 7, and previous years' reports were accepted with blank fields to indicate "zero." Staff also noted that the Company has been regulated since 2006 and has no prior violations of WAC 480-15-480.

Because the Commission previously accepted annual reports filed with blank fields to indicate "zero," the Commission considers All Alaska's annual report timely filed and withdraws the penalty assessed against the Company. The Company should note that future reports must include responses for each field, even where the response is "zero," or the report will be considered incomplete.

THE COMMISSION GIVES NOTICE that the penalty of \$1,000 assessed against All Alaska Thru Van, Inc. is withdrawn and Docket TV-150874 is closed.
