Mr. Steven V. King, Executive Director and Secretary
Washington Utilities and Transportation Commission
1300 South Evergreen Park Drive SW
Olympia, WA 98504-7250

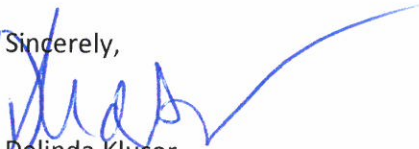

Dear Mr. King:

Re: 2015 ETC Certification and Reports -
Docket UT-151384.

Revised information is being submitted for Report #3 and Report #6 for the ETC Annual Report per WAC 480-123-070 and WAC 480-123-080.

Please contact me for any other necessary information at dkluser@ortelco.net or at 541-932-4411.

Sincerely,

Delinda Kluser
Vice-Pres, Manager

ETC ANNUAL REPORT PER WAC 480-123-070 AND WAC 480-123-080
Contains Certifications Required by WAC 480-123-060 and 070
July 1, 2015

Skyline Telecom ("Company") hereby submits the following reports in accordance with WAC 480-123-070 and WAC 480-123-080.

1. Report 1: Report on use of funds: WAC 480-123-070(1)(a):

The Company used support from the federal high-cost fund in 2014 as follows: Strictly to provide, maintain, and upgrade facilities and services for which the support is intended.

For 2014 the Company's gross capital expenditures were zero. The Company's 2014 operating expenses were \$635,950. Recent major projects include the preparation for the upgrading of nodes in the MT Hull exchange. This will improve the quality of service for data customers and will also allow for increased broadband speeds.

Per the direction of Commission Staff, the NECA -1 report will be provided as soon as it is available and no later than August 1, 2015.

2. Report 2: WAC 480-123-070(1)(b): The Company reports that the investments and expenses report under Report 1, above, benefited the customers as follows:

The customers served by the Company benefited from the use of high-cost fund support by continuing to receive high quality telecommunications services.

Through the expenditure of these funds, the Company was able to continue to provide services at a level that the Company believes meets the intent set forth in 47 U.S.C § 254 of providing quality telecommunications services to customers in the service area for which the Company is designated as an ETC.¹ The Company has made substantial investments over the past several years which allow it to provide quality telecommunications services to its customers in its designated ETC service area. Those expenditures and investments, including those reflected in Report 1 above, generally benefit all customers receiving the federal high-cost fund supported services from the Company within its designated ETC service area. The Company has expanded its network over the past several years so that it is capable of providing access to broadband services throughout most of the Company's designated ETC service area. The Company offers services that are comparable to services offered in urban areas at rates that are comparable to rates for such services in urban areas.

3. Report 3: Local Services Outage Report: WAC 480-123-070(2):

¹ The term "ETC" is used in the same sense as the term is used in Chapter 480-123 WAC.

The company reports an outage occurring on June 14, 2014 at 16:00 in which service to the Silverton area was interrupted. It was determined that Frontier had a blown fuse at the meet-point which led to this interruption of service to Skyline customers. The repair was completed on June 15, 2015 at 11:00 by Frontier technicians.

4. Report 4: Report on Failure to Provide Service: WAC 480-123-070(3):

None

5. Report 5: Report on Complaints per 1000 Connections: WAC 480-123-070(4):

None

6. Report 6: Annual Plan: WAC 480-123-080(1):

The Company has not yet started the budgeting process for 2016 and therefore does not have the final numbers prepared for investments and expense levels for the period January 1, 2016, through December 31, 2016. Major projects are disclosed on FCC Form 481 filed with the Commission on June 25, 2015 in Docket No. UT-150063. The Company expects that levels of expenses will remain relatively the same as those it experience in calendar year 2014, subject to the effects of inflation, other commonly experienced changes in cost of labor and materials, and increased depreciation on new investment placed in service. The Company does not anticipate major adjustments in staffing levels for the relevant period.

7. Report 7: Plan of Investments and Expenditures: WAC 480-123-080(2):

As they are known to the Company at the date of this Report, the planned investment and expenses related to Washington state for the period January 1, 2016, through December 31, 2016, will remain relatively the same as those it experienced in calendar year 2014, subject to the effects of inflation, other commonly experienced changes in cost of labor and materials, and increased depreciation on new investment placed in service. The Company does not anticipate major adjustments in staffing levels for the relevant period. Major projects are disclosed on FCC Form 481 as referenced in Report 6, above. The Company has not completed its budgeting process and does not have final numbers prepared for investment and expense levels for 2016. The Company expects that the continued receipt of federal high-cost support will allow the Company to continue to provide the supported services at rates that are comparable to the rates for such services in urban areas. All customer in the Company's designated ETC service area will benefit from the expected level of support by continuing to have available to them services that are comparable to the telecommunications services offered in urban areas at rates that are comparable to the rates for such services in urban areas.
