Olympia, WA 98504-7250

Re: Docket UT-180763 - Computer 5, Inc. d/b/a LocalTel Communications and d/b/a SkyFi
Wireless Internet - Filing of FCC Form 683 (long form) materials

Dear Mr. Johnson:

On behalf of Computer 5, Inc. d/b/a LocalTel Communications and d/b/a SkyFi Wireless Internet (“LocalTel”) enclosed for filing with the Washington Utilities & Transportation Commission (“Commission”) is a copy of LocalTel’s FCC Form 683 (long form) materials, which were submitted to the Federal Communications Commission in connection with the Connect America Fund Phase II Auction (Auction 903).

At the suggestion of the Commission’s staff, LocalTel is filing both a **confidential** and a public redacted version, using the WUTC e-filing portal.

The confidential version contains materials that are confidential under WAC 480-07-160, including (a) network configuration and design information concerning the design of LocalTel’s network, and (b) sensitive cost, funding and financial information. Although submitted to the FCC, this material is not generally available to the public, and the FCC has expressly indicated that applicant’s descriptions of project funding, technology and system design, as well as financial information, will be maintained confidentially. Disclosure of the information marked as confidential by LocalTel would cause competitive harm to LocalTel’s business, and LocalTel takes reasonable measures to preserve the confidentiality of this information. In addition to LocalTel, the FCC’s Auction 903 bidding process could be harmed by disclosure of the confidential materials submitted herein.
