# CULTURE OF SUCCESS

## THE HTH TEAM

HTH was founded in July 2008 by Henry Do. Holding degrees in Economics and Finance, Henry began his career at a private equity firm serving the wireless industry where he recognized the need for a repair company that was laser focused on quality and efficiency. Nothing affected the bottom line of companies more than those two factors. With that, HTH was formed. Over the past twelve years, HTH has grown in size and scope and it has done so by creating a culture of success for employees. Enabling employees to grow and excel within the company, ensuring employees do their jobs with integrity and attention to detail, and rewarding employees when they achieve their goals are all part of the HTH culture.
