**Re: Replacement Pages for UG-230739 – Schedule 231: Temporary Adjustment to Rates  
for Residential Bill Discount Program  
DO NOT REDOCKET**

On September 12, 2023, Northwest Natural Gas Company, dba NW Natural (NW Natural or Company), filed Advice No. 23-05, docketed as UG-230739, to introduce tariff schedules for its proposed residential bill discount program. The Company has since discovered an error in the calculation of rates proposed in tariff page Schedule 231.1. This filing corrects those rates and provides the corrected supporting rate calculation pages.

**Purpose**

The purpose of this filing is to provide a replacement page for tariff Schedule 231, sheet 231.1 and replacement supporting rate calculation pages 1 and 2 of Exhibit A from the September 12 filing. All other tariff pages and workpapers from the original filing remain unchanged.

The revised bill impacts resulting from the replacement tariff sheet are as follows:

The average residential Schedule 2 customer using 58 therms would see an increase of \$0.83 per month, and the average Schedule 3 commercial customer using 249 therms would see a bill increase of \$3.17 per month. The bill impact for customers on other residential rate schedules is shown on page 2 of Exhibit A.

**Conclusion**

NW Natural respectfully requests that the replacement tariff sheet filed herewith be approved to become effective November 1, 2023.

As requested by WAC 480-80-103(4)(a), I certify that I have authority to issue tariff revisions on behalf of NW Natural.

For the purposes of establishing a service list for this docket, and for any questions, please address correspondence on this matter to me with copies to the following:
