Re: UE-230886 – Avista Utilities Tariff WN U-28, Schedule 90, Electric Energy Efficiency Programs

Dear Ms. Hunter:

On November 1, 2023, Avista Corporation, dba Avista Utilities (Avista or the Company), submitted to the Washington Utilities and Transportation Commission (Commission) its proposed modifications to its electric tariff Schedule 90, with a substitute filing then made on December 13, 2023 to extend the effective date of the requested revisions to allow Staff more time to review the tariff filing.

After further discussion with Commission Staff, the initial language provided in the Company's requested tariff modifications was found to be too broad to capture the specific changes intended. As such, Avista hereby submits its second and final substitute pages for this filing, which contains replacement pages for sheets 90A and 90B that provide language modifications to clarify the Company's initial request; sheet 90C remains unchanged.

If you have any questions regarding this information, please contact me at (509) 495-7839.

Sincerely,

/s/ Jaime Majure
