YOU MUST RESPOND WITHIN 15 DAYS OF THIS NOTICE

The Washington Utilities and Transportation Commission (Commission) believes that MASTEC North America (MASTEC or Company) violated Revised Code of Washington (RCW) 19.122.055(1)(a) by failing to notify the one-number locate service and causing damage to an underground gas facility.

RCW 19.122.055(1)(a) states, in part, that excavators who fail to notify a one-number locator service and cause damage to an underground gas facility are subject to a civil penalty of not more than \$10,000 for each violation.

Commission staff (Staff) conducted an investigation that included reviewing damage reports, investigation reports, the One Call Center database, and communications with the Company. The documents reviewed identified a natural gas event that involved MASTEC damaging a natural gas facility while excavating without a valid locate ticket.

The Commission reviewed findings and recommendations made by Staff and hereby notifies you that it is assessing a \$1,000 penalty (Penalty Assessment) against you on the following grounds:

1. **Alleged Violation:**
On April 24, 2025, MASTEC was excavating at 15415 201st Avenue East, Bonney Lake, Washington. While excavating, MASTEC workers struck and damaged an underground Puget Sound Energy (PSE) natural gas facility. The Damage Information Reporting Tool (DIRT) report submitted by PSE on June 5, 2025, indicated that MASTEC was excavating without a valid request to locate underground utilities.
2. **Analysis:**
The alleged violation concerns RCW 19.122.055(1)(a), which states, in part, that an excavator must contact the one-number locate center before beginning excavation. On July 10, 2025, PSE responded to Staff and provided the ELM, Gas First Responder (GFR)

report, and other documents. The GFR report documented that MASTEC was operating a backhoe to install a utility vault when it hit and broke a 1 1/8" service stub causing a 1" hole and severing the service. The GFR noted that the damage occurred despite a clear stub marker present at the dig location. The GFR report documented that MASTEC did not have a valid locate ticket but did assist with repairs. The ELM report documented that MASTEC damaged an underground gas line, did not have a valid locate ticket, and GFR repaired the damage.

On July 23, 2025, MASTEC responded to Staff's initial email request for information and requested a one or two week extension to respond. Staff granted the extension. On August 4, 2025, Staff sent MASTEC an email regarding the status of the Company's response. On August 11, 2025, Staff sent a final email to the Company regarding the status of its response. To date, MASTEC has not responded to Staff's request for information.

Staff searched the Washington One Call Center database and confirmed that MASTEC did not have a valid locate on April 24, 2024, for the location at 15415 201st Avenue East, Bonney Lake, WA.

The Commission considered the following factors in determining the appropriate penalty amount for the violation:

1. **How serious or harmful the violation is to the public.**
This incident could have been significantly more harmful to Company workers, utility technicians, nearby homeowners, and the public, and it could have resulted in severe injury and/or loss of property.
2. **Whether the violation is intentional.**
This violation appears to be due to negligence by MASTEC rather than a lack of knowledge regarding Washington State's dig law. Since August 11, 2024, MASTEC has submitted 2,326 requests to locate underground facilities in Washington.
3. **Whether the company self-reported the violation.**
The Company did not self-report the violation. The Commission became aware of the violation when PSE filed a DIRT report following the damage incident.
4. **The likelihood of recurrence.**
The likelihood of recurrence depends on the Company's actions going forward and its willingness to notify the one-number locate service every time before beginning excavation.
5. **The Company's previous warning letter.**
On December 11, 2020, the Commission mailed an Alleged Violation of Washington Dig Law letter to MASTEC. The letter included detailed information about Washington State's Underground Utility Damage Prevention Act, requirements for submitting utility locate requests before excavating, and the possibility of penalties for each violation. The Commission mailed the letter after receiving a report of damage caused by MASTEC on

August 7, 2020, that occurred because the Company failed to submit a request to locate underground utilities before excavating.

The Commission has considered these factors and determined that it should penalize MASTEC North America as follows:

- \$1,000 penalty for one violation of RCW 19.122.055(1)(a) with an offer to suspend an \$800 portion of the penalty for one year, and then waive it, subject to the conditions that:
 - 1) Company management and field crew responsible for excavation complete Dig Safe Training provided through the National Utility Contractors Association (NUCA) within 90 days of this Penalty Assessment;
 - 2) The Company must submit documentation of training completion to the Commission; and
 - 3) The Company must not commit any further violations of RCW 19.122 within 12 months of the date of this Penalty Assessment.

These facts, if proven at a hearing and not rebutted or explained, are sufficient to support the Penalty Assessment.

Your penalty is due and payable now. If you believe the violation did not occur, you may deny committing the violation and contest the penalty through evidence presented at a hearing or in writing. Or, if there is a reason for the violation that you believe should excuse you from the penalty, you may ask for mitigation (reduction) of the penalty through evidence presented at a hearing or in writing. The Commission will grant a request for a hearing only if material issues of law or fact require consideration of evidence and resolution in a hearing. Any request to contest the violation or for mitigation of the penalty must include a written statement of the reasons supporting that request. Failure to provide such a statement will result in denial of the request. *See* RCW 81.04.405.

If you properly present your request for a hearing and the Commission grants that request, the Commission will review the evidence supporting your dispute of the violation or application for mitigation in a Brief Adjudicative Proceeding before an administrative law judge. The administrative law judge will consider the evidence and will notify you of their decision.

You must act within 15 days after receiving this Penalty Assessment to do one of the following:

- Pay the \$1,000 penalty amount due; or
- Pay \$200 and notify the Commission that you accept the offer to suspend an \$800 portion of the penalty amount subject to the following conditions:
 - Company management and field crew responsible for excavation must complete NUCA Dig Safe Training (<https://utc-9183.quickbase.com/db/bpkt6vndh>) within 90 days of service of this Penalty Assessment; and
 - The Company must submit documentation of training completion (Certificate) to the Commission. (See attached **NUCA Dig Safe Training Verification Record**); and
 - The Company must not incur any additional violations of RCW 19.122 within 12 months of the date of this Penalty Assessment; or
- Request a hearing to contest the occurrence of the violations; or

- Request mitigation to reduce the amount of the penalty.

Please indicate your selection on the enclosed form and submit it electronically through the Commission's web portal at <https://efiling.utc.wa.gov/Form> **within FIFTEEN (15) days** after you receive this Penalty Assessment. If you are unable to use the web portal, you may submit it via email to records@utc.wa.gov. If you are unable to submit the form electronically, you may send a paper copy to the Washington Utilities and Transportation Commission, PO Box 47250, Olympia, Washington 98504-7250.

If you wish to make your payment online, please use this link: [Make a Payment Now \(wa.gov\)](#).¹

If you do not act within 15 days, the Commission may refer this matter to the Office of the Attorney General for collection.

DATED at Lacey, Washington, and effective August 19, 2025.
