In December 2023, the Washington Utilities and Transportation Commission (UTC) awarded nine GCPF grants totalling \$72,438.93 to Yak Rail LLC to replace crossing signal batteries and battery chargers at nine grade crossings on its line between Toppenish and White Swan.

On March 27, 2024, Yak Rail LLC notified UTC staff that the work had been completed, and on April 5, 2024, submitted requests for reimbursement. UTC staff inspected each crossing and verified that the projects were completed according to the specifications outlined in the orders approving each grant.
