Comment: PSE offered the chance to obtain clean power via Arcadia Power, which I opted for eagerly. I am grateful for this program, and I don't mind paying the premium, but I find myself thinking how much better it would be if it were THE program. If we have the know-how, and we can see the writing on the wall, why not go full steam ahead (sort of pun intended) into clean power? We could realize the economies of scale and set up a fantastic system for now and the future.
