# 2012-2013 Condition Compliance Checklist (Exhibit 9)

May 30, 2014

#### **Condition Compliance Checklist**

#### PSE 2012-2013 ENERGY EFFICIENCY DELIVERABLES---COMPLIANCE STATUS

- This table is intended to provide an overview of PSE plans to clearly indicate its achievement of the conditions and the status of conservation deliverables. It is revised to reflect the conditions included in Order 01, Docket No. UE-111881, which does not address sections A-J and section L of the 2010 EIA Settlement Agreement (UE-100177). These deliverables are still in force. Effective June, 2013, natural gas-specific requirements enumerated in Exhibit F of Docket No. UG-011571 are also included. Thus, this document is no longer an electric-specific checklist.
- Unless provided in a specific condition, when documentation is provided to the CRAG for review or comment---that doesn't have a specified review period---PSE will provide 30 calendar days-that takes into account very full demands on CRAG members' time--before it classifies a deliverable as "completed" Draft filing documents will have a review period of 60 days prior to the proposed effective date, per the applicable condition(s).

  • If the condition doesn't indicate a specific CRAG deliverable ("review", "comment", "advise", etc..) the condition is considered met when the document, calculation, report,
- etc., is filed or submitted.
- If the condition indicates that PSE must perform some task \*if\* a change is requested (for instance, condition (7)(d)(ii)), and there is no such change requested, the compliance status will be checked "completed".
- As PSE has consistently demonstrated over the past several years, we will respond to requests for details not already contained in provided fillings, reports or analyses, regardless of elapsed time, while maintaining the completed status of a condition.
- PSE considers the Annual and Biennial Conservation Plans "tariff filings" for purposes of condition compliance.
   The terms "Framework" and "Protocol" in applicable conditions in Order 01 are sometimes used interchangeably.
- RTF has updated the term "Deemed". Effective in 2011, measures with a standard savings value are now referred to as UES; Unit Energy Savings.
- Red text in "Condition is **met** when" field indicate an update since the last checklist publication.

#### As of: 05/14/14

= completed

= will be completed by current year filing

= did not complete

| Section or<br>Condition<br>Number | Detailed Condition  | CRAG Role                | Condition is <u>met</u> when:  (As PSE has consistently demonstrated over the past few years, we will respond to requests for details not already contained in provided filings, reports or analyses on an ongoing basis.) | Deliverable Provided<br>Date | Complete?  Blank = No Date = Pending Check = Yes Hourglass = In Progress X = Non- compliant |
|-----------------------------------|---|--------------------------|--|------------------------------|---|
| A(1)                              | The following parties reached agreement on the terms for approval of Puget Sound Energy Inc's Ten-Year Achievable Conservation Potential and Biennial Conservation Target, which Puget Sound Energy filed in Docket UE-100177 on June 18, 2010: Puget Sound Energy, Inc. ("PSE" or the "Company"); the Staff of the Washington Utilities and Transportation Commission; the Public Counsel Section of the Attorney General's Office; Intervenor (sp) Industrial Customers of Northwest Utilities; and Intervenor NW Energy Coalition ("NWEC") (hereinafter referred to collectively as "Executing Parties"). This Settlement Agreement ("Agreement") is the agreement reached by the Executing Parties.   | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |
| A(2)                              | The Executing Parties intend that this Agreement shall supersede and replace the Settlement Terms for Conservation, Exhibit F to the Settlement Stipulation in Docket UE-011570 for electric conservation. This Agreement addresses conservation of electricity only. It does not address conservation of natural gas. The Northwest Industrial Gas Users and The Energy Project, signatories to the Settlement Terms for Conservation, Exhibit F to the Settlement Stipulation in Docket UG-011571 but not parties in Docket UE-100177, participated in discussions about the preparation of this Agreement. Nothing in this settlement shall affect the natural gas Settlement Terms for Conservation, Exhibit F to the Settlement Stipulation in Docket UG-011571 with respect to natural gas conservation, which remains in full force and effect with respect to natural gas conservation issues.  (Emphasis added.) | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |
| A(3)                              | The approval of Initiative 937 in 2006, codified in Chapter 19.285 of the Revised Code of Washington as the Energy Independence Act, and PSE's subsequent filing in Docket UE-10177, resulted in the need to update and amend the electric conservation provisions of the Settlement Terms for Conservation, Exhibit F to the Settlement Stipulation in Docket UE-011570. Those changes are included in this Agreement. RCW 19.285.040(1) and WAC 480-109-010 require utilities to identify achievable cost-effective conservation potential using methodologies consistent with those used by the Northwest Power and Conservation Council ("Council").  | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |
| B(4)                              | This Agreement establishes a conservation program with no sunset date. Any party may petition the Commission for modifications to the program, including in a general rate case proceeding. Nothing herein prevents any party from commenting on any filings under this or any other docket before the Commission.  | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |
| B(4)(a)                           | Except where expressly stated, the conditions in Section K and all other provisions of this<br>Agreement are intended to remain in effect notwithstanding the biennial review conducted<br>under the Energy Independence Act. Any party may petition to, or the Commission may on<br>its own motion and notice to parties, modify the conservation program if required by the<br>results of the review.   | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |
| B(4)(b)                           | In the event that PSE is not required to set or achieve specific conservation savings targets by the Energy Independence Act or other state law, PSE agrees to continue a conservation program that is consistent with the provisions of the 2002 Settlement, such that the programs funded through PSE's tariff rider will be designed to achieve all savings that are not independently captured by consumer acquisition, that are cost-effective to the Company, and economically feasible for consumers, taking into account incentives provided by PSE.  | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |

- This table is intended to provide an overview of PSE plans to clearly indicate its achievement of the conditions and the status of conservation deliverables. It is revised to reflect the conditions included in Order 01, Docket No. UE-111881, which does not address sections A-J and section L of the 2010 EIA Settlement Agreement (UE-100177). These deliverables are still in force. Effective June, 2013, natural gas-specific requirements enumerated in Exhibit F of Docket No. UG-011571 are also included. Thus, this document is no longer an electric-specific checklist.
- Unless provided in a specific condition, when documentation is provided to the CRAG for review or comment---that doesn't have a specified review period---PSE will provide 30 calendar days---that takes into account very full demands on CRAG members' time--before it classifies a deliverable as "completed". Draft filing documents will have a review period of 60 days prior to the proposed effective date, per the applicable condition(s).
- If the condition doesn't indicate a specific CRAG deliverable ("review", "comment", "advise", etc.,) the condition is considered met when the document, calculation, report, etc., is filed or submitted.
- If the condition indicates that PSE must perform some task "if" a change is requested (for instance, condition (7)(d)(ii)), and there is no such change requested, the compliance status will be checked "completed".
- As PSE has consistently demonstrated over the past several years, we will respond to requests for details not already contained in provided fillings, reports or analyses,
- regardless of elapsed time, while maintaining the completed status of a condition.

   PSE considers the Annual and Biennial Conservation Plans "tariff filings" for purposes of condition compliance.
- The terms "Framework" and "Protocol" in applicable conditions in Order 01 are sometimes used interchangeably.

  RTF has updated the term "Deemed". Effective in 2011, measures with a standard savings value are now referred to as UES; Unit Energy Savings.
- Red text in "Condition is **met** when" field indicate an update since the last checklist publication.

# As of: 05/14/14

= will be completed by current year filing

= did not complete

| Section or<br>Condition<br>Number | Detailed Condition  | CRAG Role                | Condition is <u>met</u> when:  (As PSE has consistently demonstrated over the past few years, we will respond to requests for details not already contained in provided filings, reports or analyses on an ongoing basis.) | Deliverable Provided<br>Date | Complete?  Blank = No Date = Pending Check = Yes Hourglass = In Progress X = Non- compliant |
|-----------------------------------|---|--------------------------|--|------------------------------|---|
| C(5)                              | PSE shall set the ten-year conservation potential and the biennial conservation targets as required by the Energy Independence Act (RCW 19.285) and WAC 480-109 and consistent with this Agreement.   | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |
| C(6)                              | In general each individual energy efficiency program shall be designed to be cost-effective.  | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |
| D(7)                              | PSE shall establish an external Advisory Committee. The Advisory Committee shall address, but not be limited to the issues identified in Section K.3 of this Agreement.   |                          |  |                              | Not applicable<br>No deliverable  |
| D(8)                              | Advisory Committee membership shall be established as follows. The Company shall extend an invitation to serve as an Advisory Committee member to a representative from at least each of the following organizations: WUTC staff, Attorney General Office of Public Counsel, NW Energy Coalition, Energy Project, Natural Resources Defense Council, Pacific Northwest Electric Power and Conservation Council, Industrial Customers of Northwest Utilities, Northwest Energy Efficiency Council, and the Department of Energy Weatherization Assistance Program provider network. Additionally, the Company shall seek customer representatives from the residential, commercial, industrial, and institutional sectors to serve on the Advisory Committee. Other interested parties may attend Advisory Committee meetings as well, but will not be considered Advisory Committee members. This ongoing committee is now called the Conservation Resources Advisory Group (CRAG). | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |
| E(9)                              | To determine which energy efficiency programs and measures are cost-effective, PSE shall rely on a calculation of avoided cost consistent with the Council methodology and with the Energy Independence Act.  | No specific<br>CRAG role |  |                              | Not applicable<br>No deliverable  |
| UG-011571<br>F.16                 | PSE shall develop, in conjunction with its August 2002 filing, avoided costs for natural gas efficiency programs, with review from the Advisory Committee, by analyzing similar components of system costs.   |                          | PSE presents its Annual or Biennial Conservation Plan, that includes gas program avoided costs in Exhibit 2.   | 11/01/13                     | <b>✓</b>  |
| E(10)                             | PSE may modify, after consultation with the CRAG, the Company's calculation of avoided cost based upon the following: modification to one or more component values of the calculation, use of a forecasting tool or production cost model other than Aurora, establishment of load factors that are more specific to PSE's service territory, or other information relevant to the calculation of avoided cost.   | Consult                  | PSE conveys the date that the CRAG was consulted.  | 11/01/13                     | <b>✓</b>  |

- This table is intended to provide an overview of PSE plans to clearly indicate its achievement of the conditions and the status of conservation deliverables. It is revised to reflect the conditions included in Order 01, Docket No. UE-111881, which does not address sections A-J and section L of the 2010 EIA Settlement Agreement (UE-100177). These deliverables are still in force. Effective June, 2013, natural gas-specific requirements enumerated in Exhibit F of Docket No. UG-011571 are also included. Thus, this document is no longer an electric-specific checklist.
- Unless provided in a specific condition, when documentation is provided to the CRAG for review or comment---that doesn't have a specified review period---PSE will provide 30 calendar days---that takes into account very full demands on CRAG members' time--before it classifies a deliverable as "completed". Draft filing documents will have a review period of 60 days prior to the proposed effective date, per the applicable condition(s).
- If the condition doesn't indicate a specific CRAG deliverable ("review", "comment", "advise", etc.,) the condition is considered met when the document, calculation, report, etc., is filed or submitted.

= did not complete

| Section or<br>Condition<br>Number | Detailed Condition   | CRAG Role                | Condition is <u>met</u> when:  (As PSE has consistently demonstrated over the past few years, we will respond to requests for details not already contained in provided fillings, reports or analyses on an ongoing basis. | Deliverable Provided<br>Date                                    | Complete?  Blank = No Date = Pending Check = Yes Hourglass = In Progress X = Non- compliant |
|-----------------------------------|--|--------------------------|--|---|---|
| F(11)                             | The annual budget of the program will be built up from the bottom through the development of a mix of programs that deliver cost-effective savings in PSE's service territory. PSE's conservation targets developed under RCW 19.285.040(1) will direct development of the mix of cost effective programs that will establish the budgets for efficiency programs.   | No CRAG<br>specific role | PSE provides to the CRAG its draft of biennial budgets and savings goals on September 1 each odd year.   | 2013 ACP and 2014-<br>2015 BCP filings.                         |   |
| UG-011571<br>H.25                 | Tariff-rider funds shall only be used on programs and their associated administrative costs that result in energy savings through energy efficiency investments or fuel switching. This may include reasonable administration costs for PSE's net metering program.  (Emphasis added.)   | Review                   | PSE provides its annual budgets in its Conservation Plans and reports expenditures in its Annual Reports.  | Concurrent with PSE's<br>filing of Annual<br>Conservation Plans | <b>&gt;</b>   |
| F(12)                             | Schedule 449 customers are eligible for self-direction under existing Schedule 258 and participation in efficiency programs offered by PSE, except as stated in paragraph 13. Schedule 258 customers who are not on Schedule 449 will be eligible to participate in other programs offered directly by PSE. Non-449 Schedule 258 customers will share in paying NEEA/market transformation and administration costs consistent with all other non-449 customers. | No CRAG<br>specific role | PSE provides Schedule 120 and/or Schedule 258 work papers.   | Ongoing<br>Standard Business<br>Practice                        | <b>✓</b>  |
| F(13)                             | Each Schedule 449 customer can self-direct and/or participate in programs offered directly by PSE up to a total dollar cap equal to the annual efficiency funding level for that 449 customer minus 17.5% of that amount. The 17.5% represents payments for market transformation (10%) and for administration (7.5%).   | No CRAG<br>specific role | PSE provides Schedule 120 and/or Schedule 258 work papers.   | Ongoing<br>Standard Business<br>Practice                        | <b>✓</b>  |

- This table is intended to provide an overview of PSE plans to clearly indicate its achievement of the conditions and the status of conservation deliverables. It is revised to reflect the conditions included in Order 01, Docket No. UE-111881, which does not address sections A-J and section L of the 2010 EIA Settlement Agreement (UE-100177). These deliverables are still in force. Effective June, 2013, natural gas-specific requirements enumerated in Exhibit F of Docket No. UG-011571 are also included. Thus, this document is no longer an electric-specific checklist.

  RTF has updated the term "Deemed". Effective in 2011, measures with a standard savings value are now referred to as UES; Unit Energy Savings.
- Red text in "Condition is **met** when" field indicate an update since the last checklist publication.

# As of: 05/14/14

= will be completed by current year filing

= did not complete

| Section or<br>Condition<br>Number | Detailed Condition   | CRAG Role                | Condition is <u>met</u> when:  (As PSE has consistently demonstrated over the past few years, we will respond to requests for details not already contained in provided fillings, reports or analyses on an ongoing basic. | Deliverable Provided<br>Date             | Complete?  Blank = No Date = Pending Check = Yes Hourglass = In Progress X = Non- compliant |
|-----------------------------------|--|--------------------------|--|--|---|
| G(14)                             | PSE will continue to honor Commitments 22 and 23 from U-072375 with regard to future funding levels for low-income energy conservation programs based on the 2010-2011 planning levels. PSE will continue to work with agencies to provide additional funding above that established by Commitment 22 if additional production through the existing or newly developed cost-effective programs warrants it. In addition, PSE will continue to contribute a total of \$300,000 of shareholder funds annually for low-income weatherization regardless of fuel type.   | No CRAG<br>specific role | PSE provides its budget drafts to the CRAG on September 1 each year.   | Ongoing<br>Standard Business<br>Practice | <b>✓</b>  |
| H(15)                             | The Company shall retain the existing rider mechanism going forward, subject to the Commission's Order in Docket No. UE-970686.  | No CRAG<br>specific role | PSE files its Schedule 120 each March 1. Gas Tracker converted to Rider mechanism, Docket No UG-120812.  | 04/25/13                                 | <b>✓</b>  |
| H(16)                             | The Company shall continue to use the peak credit method of assigning the costs of its electric conservation programs to each rate schedule with one exception, the Schedule 449 customers. (The CRAG will review cost allocation methodology per Section K, Paragraph (11)(c)). Schedule 449 customers currently pay 0.0944 cents per kWh toward the cost of the current Schedule 258 four-year conservation program (4/1/10 – 4/1/14). The current practice is to hold the payment amount constant over the Schedule 258 period. This amount is based on a \$164 million biennial electric conservation-only budget for 2010-11, and is scalable in the next Schedule 258 budget cycle depending on whether the overall conservation budget increases or decreases. In 2002, the Schedule 449 customers paid 0.045 cents per kWh toward the cost of the conservation program. This amount was based on a \$20 million annual budget. | No CRAG<br>specific role | A final revised Schedule 258 was filed and approved in August, 2011.   | Ongoing<br>Standard Business<br>Practice | <b>✓</b>  |

- This table is intended to provide an overview of PSE plans to clearly indicate its achievement of the conditions and the status of conservation deliverables. It is revised to reflect the conditions included in Order 01, Docket No. UE-111881, which does not address sections A-J and section L of the 2010 EIA Settlement Agreement (UE-100177). |-----------------------------------|--|--------------------------|---|---|---|
| UG-011571<br>L.38                 | Gas conservation program costs will be allocated in a manner consistent with the gas program in effect in May 2002. No gas conservation program costs shall be allocated for recovery from natural gas transportation customers. Natural gas program cost recovery allocations made to natural gas sales customers shall be made according to the peak credit (i.e., bridge) methodology that underlies Puget's recovery for surcharges for its current conservation programs as approved in March 2002 in Docket No. UG-020264. |                          |   | Concurrent with PSE's<br>filing of Annual<br>Conservation Plans               | <b>✓</b>  |
| l(17)                             | Achievement of the biennial targets for savings from cost-effective electricity conservation programs shall be subject to the penalty/incentive provisions of the Energy Independence Act. In the event that statutory penalties/incentives no longer apply under the Energy Independence Act or other state law or Commission order, PSE agrees to develop and propose a replacement penalty mechanism in consultation with the CRAG. At the same time, PSE may propose an incentive mechanism in consultation with the CRAG.   | No CRAG<br>specific role | Subsequent to the submittal and approval of its electric conservation achievements, PSE pays any agreed-to fines due.   | Subsequent to<br>Commission order 07,<br>Docket No UE-100177,<br>October 2012 | <b>✓</b>  |
| UG-011571<br>M.43                 | The financial penalties for failure to achieve the annual conservation savings targets are as follows.  • Achieve savings that are 90 to 99% of the goal: \$200,000 penalty applies  • Achieve savings that are 75% to 89% of the goal: \$500,000 penalty applies  Achieve savings that are less than 75% of the goal: \$750,000 penalty applies   |                          | PSE documents the presentation of the penalty calculation figures and the resultant indicattion of penalty/no penalty status.   | Final biennial results<br>are represented in odd-<br>year Annual Reports      | <b>✓</b>  |
| I(18)                             | The Company shall provide biennial notification in a Conservation Report Card to its customers regarding the Company's performance related to its biennial savings targets under the Energy Independence Act. [The following is after I(18)(d)(3)] The report also may contain reference to PSE's ongoing energy efficiency programs, including encouragement for customers to participate in those programs. The report shall:  | No CRAG<br>specific role | Please see I(18)c   | Subsequent to<br>Commission order 07,<br>Docket No UE-100177,<br>October 2012 | <b>✓</b>  |
| UG-011571<br>M.44                 | The Company shall provide biennial notification in a Conservation Report Card to its customers regarding the Company's performance related to its annual savings targets. The report shall:  (All agree with I(18)(a), I(18)(b). M.44.c, though, indicates:  Be distributed no later than 90 days after the filing of the Annual Conservation report (currently due February 15), beginning in 2006 and every two years thereafter.  |                          | PSE provides documentation of the notification "proof" and the first delivery date.   | 05/01/14  | <b>✓</b>  |

- This table is intended to provide an overview of PSE plans to clearly indicate its achievement of the conditions and the status of conservation deliverables. It is revised to reflect the conditions included in Order 01, Docket No. UE-111881, which does not address sections A-J and section L of the 2010 EIA Settlement Agreement (UE-100177). These deliverables are still in force. Effective June, 2013, natural gas-specific requirements enumerated in Exhibit F of Docket No. UG-011571 are also included. Thus, this document is no longer an electric-specific checklist.
- Unless provided in a specific condition, when documentation is provided to the CRAG for review or comment---that doesn't have a specified review period---PSE will provide 30 calendar days---that takes into account very full demands on CRAG members' time--before it classifies a deliverable as "completed". Draft filing documents will have a review period of 60 days prior to the proposed effective date, per the applicable condition(s).
- If the condition doesn't indicate a specific CRAG deliverable ("review", "comment", "advise", etc.,) the condition is considered met when the document, calculation, report, etc., is filed or submitted.
- If the condition indicates that PSE must perform some task "if" a change is requested (for instance, condition (7)(d)(ii)), and there is no such change requested, the compliance status will be checked "completed".
- As PSE has consistently demonstrated over the past several years, we will respond to requests for details not already contained in provided fillings, reports or analyses,
- regardless of elapsed time, while maintaining the completed status of a condition.

   PSE considers the Annual and Biennial Conservation Plans "tariff filings" for purposes of condition compliance.
- The terms "Framework" and "Protocol" in applicable conditions in Order 01 are sometimes used interchangeably.
  RTF has updated the term "Deemed". Effective in 2011, measures with a standard savings value are now referred to as UES; Unit Energy Savings.
- Red text in "Condition is **met** when" field indicate an update since the last checklist publication.

|-----------------------------------|--|--------------------------|--|---|---|
| (6)(a)                            | PSE has identified a number of potential conservation measures described in the BCP. The Commission is not obligated to accept savings identified in the BCP for purposes of compliance with RCW 19.285. PSE must demonstrate the prudence and cost-effectiveness of its conservation programs to the Commission after the savings are achieved. See RCW 19.285.040(1)(d).   | No CRAG<br>specific role | The data is filed as an exhibit to the Annual Report.  | Prudence is<br>demonstrated during<br>Schedule 120 filing<br>reviews. | <b>✓</b>  |
| (6)(b)                            | Except as provided in Paragraph (6)(c) below, PSE must use the Council's Regional Technical Forum's ("RTF's") "deemed" savings for electricity measures. As of the date of this Agreement, the RTF maintains a Web site at http://www.nwcouncil.org/energy/rtf/.   | No CRAG<br>specific role | The list of prescriptive measures, indicating the savings type, is provided as an appendix to the Annual Report.   | Ongoing   | <b>✓</b>  |
| (6)(c)                            | If PSE uses savings estimates that differ from those established by the RTF, such estimates must be based on generally accepted impact evaluation data and/or other reliable and relevant source data that has verified savings levels, and be presented to the CRAG for comment.  | Review and<br>Comment    | PSE presents Exhibit 4 of its Annual Report.   | Ongoing   | <b>/</b>  |
| (6)(d)                            | When PSE proposes a new program tariff schedule, it must present it to the CRAG for comment with program details fully defined. After consultation with the CRAG in accordance with Paragraph (3) above, PSE must file a revision to its Annual Conservation Plan in this Docket. The revision may be acknowledged by placement on the Commission's No Action Open Meeting agenda.   | Review and<br>Comment    | The new Schedule and ACP revision are filed.   | Ongoing   | <b>✓</b>  |
| (6)(e)                            | PSE must provide opportunities for the CRAG to review and advise on the development of evaluation, measurement and verification protocols for conservation programs. See Paragraph 3(a)(i) above.  | Review &<br>Advise       | PSE documents the dates on which EM&V protocol drafts were provided to the CRAG and 30 days after the final draft is presented.  | 11/01/13  | <b>✓</b>  |
| (6)(f)                            | PSE must spend a reasonable amount of its conservation budget on EM&V, including a reasonable proportion on independent, third-party EM&V. PSE must perform EM&V annually, on a four-year schedule of selected programs such that, over the EM&V cycle, all major programs are covered. The EM&V function includes impact, process, market and cost test analyses. The results must verify the level at which claimed energy savings have occurred, evaluate the existing internal review processes, and suggest improvements to the program and ongoing EM&V processes. Evaluation reports involving analysis of both program impacts and process impacts of the programs evaluated in the prior year must be part of the Annual Report on Conservation Acquisition described in Paragraphs (8)(c) and (g) below. | No CRAG<br>specific role | The Annual Report is filed.  | 09/01/13  | <b>✓</b>  |

- This table is intended to provide an overview of PSE plans to clearly indicate its achievement of the conditions and the status of conservation deliverables. It is revised to reflect the conditions included in Order 01, Docket No. UE-111881, which does not address sections A-J and section L of the 2010 EIA Settlement Agreement (UE-100177). These deliverables are still in force. Effective June, 2013, natural gas-specific requirements enumerated in Exhibit F of Docket No. UG-011571 are also included. Thus, this document is no longer an electric-specific checklist.
- Unless provided in a specific condition, when documentation is provided to the CRAG for review or comment---that doesn't have a specified review period---PSE will provide 30 calendar days---that takes into account very full demands on CRAG members' time--before it classifies a deliverable as "completed". Draft filing documents will have a review period of 60 days prior to the proposed effective date, per the applicable condition(s).
- If the condition doesn't indicate a specific CRAG deliverable ("review", "comment", "advise", etc.,) the condition is considered met when the document, calculation, report, etc., is filed or submitted.
- If the condition indicates that PSE must perform some task "if" a change is requested (for instance, condition (7)(d)(ii)), and there is no such change requested, the compliance status will be checked "completed".
- As PSE has consistently demonstrated over the past several years, we will respond to requests for details not already contained in provided fillings, reports or analyses,
- regardless of elapsed time, while maintaining the completed status of a condition.

   PSE considers the Annual and Biennial Conservation Plans "tariff filings" for purposes of condition compliance.
- The terms "Framework" and "Protocol" in applicable conditions in Order 01 are sometimes used interchangeably.
  RTF has updated the term "Deemed". Effective in 2011, measures with a standard savings value are now referred to as UES; Unit Energy Savings.
- Red text in "Condition is **met** when" field indicate an update since the last checklist publication.

|-----------------------------------|---|------------------------------|---|--|---|
| (6)(g)                            | An independent third-party evaluation of portfolio-level electric energy savings reported by PSE for the 2012-2013 biennial period, from existing conservation programs operated during that period, shall be conducted to verify those savings. The independent third-party evaluator shall be selected through an RFP process. The review will be funded by the PSE Electric Conservation Service Rider. The review will be managed by UTC and PSE staff with input on the scope, cost, RFP development, evaluator selection and ongoing oversight by the CRAG. The scope shall:      | Input & Ongoing<br>Oversight | (1) the evaluator is selected  (2) when the initial report is provided and  (3) when the final report is provided.  | 05/15/14   | >>>   |
| (6)(g)(i)                         | focus on portfolio level EM&V of the existing 2012-2013 PSE conservation portfolio regarding impact, process, market, and cost-effectiveness analysis,  |                              |   |  | Only the condition section heading will be checked.   |
| (6)(g)(ii)                        | examine selected existing 2012-2013 programs or measures in more depth than others, as called for in the RFP, and   |                              |   |  | Only the condition section heading will be checked.   |
| (6)(g)(iii)                       | provide for some additional but limited detailed independent EM&V study at the program or measure level to be selected by the independent third-party evaluator from the Company's existing 2012-2013 programs.   |                              |   |  | Only the condition section heading will be checked.   |
| (6)(g)                            | This evaluation shall include a review of the Company's reported electric savings on a semi-<br>annual basis, with results provided to Commission staff and PSE and then discussed with<br>the CRAG. A final report for the entire 2012-2013 biennium shall be submitted as part of<br>the Company's two-year report on conservation program achievement, required by<br>Paragraph (8)(h) below. The report shall be finalized and made available no later than June<br>2014 and may be implemented in phases and delivered as a final product at an earlier date,<br>as needed by PSE. |                              | The final review report is filed with the Biennial Conservation Report on June 1, 2014.   | 05/15/14   | <b>✓</b>  |
| (7)(a)                            | All Sectors Included — PSE must offer a mix of tariff-based programs that ensure it is serving each customer sector, including programs targeted to the low-income subset of residential customers. Modifications to the programs must be filed with the Commission as revisions to tariffs or as revisions to PSE's Annual Conservation Plan, as appropriate.  | None                         | PSE provides to the CRAG the date(s) on which the Exhibits were updated on a quarterly basis.   | No specific delieverable<br>-ongoing business<br>practice. | <b>→</b>  |
| (7)(b)                            | Outreach on Programs — PSE must establish a strategy and proposed implementation budget for informing participants about program opportunities in the relevant market channels for each of its energy efficiency programs. PSE must share these strategies and budgets with the CRAG for review and comments, and provide updates at CRAG meetings.   | No CRAG<br>specific role     | The outreach strategy and budgets have been shared and reviewed with the CRAG in a face-to-face CRAG meeting.   | Included in Marketing<br>cost element of budget<br>details | <b>✓</b>  |

|-----------------------------------|---|--|--|---|---|
| (7)(c)                            | Incentives and Conservation Program Implementation — PSE must offer a cost-effective portfolio of programs in order to achieve all available conservation that is cost-effective, reliable, and feasible. Programs, program services, and incentives may be directed to consumers, retailers, manufacturers, trade allies or other relevant market actors as appropriate for measures or activities that lead to electric energy savings. Incentive levels and other methods of encouraging energy conservation need to be periodically examined to ensure that they are neither too high nor too low. Incentive levels and implementation methods should not unnecessarily limit the acquisition of all available conservation that is cost-effective, reliable, and feasible. PSE shall work with the CRAG to establish appropriate penetration levels consistent with Council methodology and the Energy Independence Act. | Review                                 | PSE files applicable program Exhibits, including but not limited to Exhibit 3 (Program Details) and Exhibit 4 (Measures, Incentives & Eligibility)   | No specific delieverable<br>-ongoing business<br>practice.  | <b>✓</b>  |
| (7)(d)                            | Conservation Efforts without Approved EM&V Protocol — PSE may spend up to ten (10) percent of its conservation budget on programs whose savings impact has not yet been measured, as long as the overall portfolio of conservation passes the Total Resource Cost (TRC) test as modified by the Council. These programs may include information-only, behavior change, and pilot projects.  [From last paragraph] The Company may ask the Commission to modify this spending limit following full CRAG consultation. As of the date of this Agreement, an outline of the major elements of the Council's methodology for determining achievable conservation potential, including the Total Resource Cost test, is available on the Council's Web site at http://www.nwcouncil.org/energy/powerplan/6/supplycurves/1937/CouncilMethodology_outlin e%20_2_pdf.   | No CRAG<br>specific role               | The analysis is provided.  | ratios of conservation<br>budgets without savings<br>are included in Exhibit<br>1. November 2013. | <b>✓</b>  |
| (7)(d)(i)                         | Information-only services refers to those information services that are not associated with an active incentive program or that include no on-site technical assistance or on-site delivery of school education programs. Information-only services and behavior change services shall be assigned no quantifiable energy savings value without full support of the CRAG.   | No CRAG<br>specific role               | PSE documents the date and voting results of the CRAG for proposed savings claims on information-oriented measures.  |   | Only the condition section heading will be checked.   |
| (7)(d)(ii)                        | If quantifiable energy savings have been identified and Commission-approved for any aspect of such programs, the budget associated with that aspect of the program will no longer be subject to this ten percent spending restriction.  | No CRAG<br>specific role               | PSE provides the date on which it provides its updated calculation of spending on information-oriented programs to the CRAG.   |   | Only the condition section heading will be checked.   |
| (8)                               | Required Reports and Filings  |  |  |   |   |
| (8)(a)                            | Semi-annual Conservation Acquisition Report, comparing budgeted to actual kWh's and expenditures, by August 15, 2012.   | Review &<br>Comment                    | The Semi-annual Report is filed with UTC and PSE mails hard-<br>copy versions to CRAG members.   | Semi-Annual Report<br>filed on August 15,<br>2013   | <b>✓</b>  |
| (8)(b)                            | By December 1, 2012, the 2013 Annual Conservation Plan, containing any changes to program details and an annual budget with a requested acknowledgement date of January 1, 2013. The Annual Conservation Plan may be acknowledged by placement on the Commission's No Action Open Meeting agenda. A draft will be provided to the CRAG by November 1, 2012.   | Review &<br>Comment Prior<br>To Filing | The ACP draft is provided to CRAG members in electronic and hard-copy form. Content layout is reviewed in a CRAG meeting. PSE responds to all filing questions.  | 11/01/2012<br>12/01/2012  | <b>√</b>  |
| (8)(c)                            | 2012 Annual Report on Conservation Acquisition, including an evaluation of cost-<br>effectiveness and comparing budgets to actual, by February 15, 2013.  | No CRAG<br>specific role               | PSE files the Annual Report.   | 02/13/13  | <b>✓</b>  |

- If the condition doesn't indicate a specific CRAG deliverable ("review", "comment", "advise", etc.,) the condition is considered met when the document, calculation, report, etc., is filed or submitted.
- If the condition indicates that PSE must perform some task "if" a change is requested (for instance, condition (7)(d)(ii)), and there is no such change requested, the compliance status will be checked "completed".
- As PSE has consistently demonstrated over the past several years, we will respond to requests for details not already contained in provided fillings, reports or analyses,
- regardless of elapsed time, while maintaining the completed status of a condition.

   PSE considers the Annual and Biennial Conservation Plans "tariff filings" for purposes of condition compliance.
- The terms "Framework" and "Protocol" in applicable conditions in Order 01 are sometimes used interchangeably.

  RTF has updated the term "Deemed". Effective in 2011, measures with a standard savings value are now referred to as UES; Unit Energy Savings.
- Red text in "Condition is **met** when" field indicate an update since the last checklist publication.

| Section or<br>Condition<br>Number | Detailed Condition   | CRAG Role                                     | Condition is <u>met</u> when:  (As PSE has consistently demonstrated over the past few years, we will respond to requests for details not already contained in provided filings, reports or analyses on an ongoing basis.) | Deliverable Provided<br>Date   | Complete?  Blank = No Date = Pending Check = Yes Hourglass = In Progress X = Non- compliant |
|-----------------------------------|--|---|--|--|---|
| (10)(a)                           | The Commission uses the TRC, as modified by the Council, as its primary cost- effectiveness test. PSE's portfolio must pass the TRC test. In general, each program shall  be designed to be cost-effective as measured by this test. PSE must demonstrate that the  cost-effectiveness tests presented in support of its programs and portfolio are in compliance  with the cost-effectiveness definition (RCW 80.52.030(7)) and system cost definition (RCW  80.52.030(8)) and incorporate, quantifiable non-energy benefits, the 10 percent  conservation benefit and a risk adder consistent with the Council's approach. An outline of  the major elements of the Council's methodology for determining achievable conservation  potential, including the Total Resource Cost test, is available on the Council's website at  http://www.nwcouncil.org/energy/powerplan/6/supplycurves/l937/CouncilMethodology_outlin  e%20_2_pdf. |   | The Annual Report is filed.  | Cost effectiveness tests performed as part of planning process. These tests will also be performed as a part of the 2012 & 2013 annual review. Standard business practice. |   |
| (10)(b)                           | In addition to the Council-modified TRC, PSE must provide portfolio calculations of the<br>Program Administrator Cost test (also called the Utility Cost test), Ratepayer Impact<br>Measure test, and Participant Cost test described in the National Action Plan for Energy<br>Efficiency's study "Understanding Cost-effectiveness of Energy Efficiency Programs." The<br>study is available on the Web site of the United States Environmental Protection Agency at<br>http://www.epa.gov/cleanenergy/documents/suca/cost-effectiveness.pdf.  | No CRAG<br>specific role                      | The Annual Report is filed.  | These tests were performed as a part of the 2012-2013 planning process & will be completed as a part of the final biennial conservation report.                            |   |
| (10)(c)                           | Overall conservation cost-effectiveness must be evaluated at the portfolio level. Costs included in the portfolio level analysis include conservation-related administrative costs. All cost-effectiveness calculations will assume a Net-to-Gross ratio of 1.0, consistent with the Council's methodology.  | Be consulted on and determine appropriateness | PSE documents the date that the proposed inclusion of the new CE tests was provided.   | 11/01/13   | <b>✓</b>  |
| (11)                              | Recovery Through an Electric Conservation Service Rider  |   |  |  |   |
| (11)(a)                           | Annual filing — PSE's annual Electric Conservation Service Rider filing, required under<br>Paragraph (8)(d) above, will recover the future year's budgeted expenses and any<br>significant variances between budgeted and actual income and expenditures during the<br>previous period.  |   |  | 03/01/12   | <b>✓</b>  |
| (11)(b)                           | Scope of Expenditures — Funds collected through the Electric Conservation Service Rider must be used on approved conservation programs and their administrative costs. Additionally, Rider funds may be used as approved by the Commission; e.g., for net metering administration costs, small-scale renewable programs and demand response pilots.  |   |  |  | Explanation only<br>No deliverable  |

- This table is intended to provide an overview of PSE plans to clearly indicate its achievement of the conditions and the status of conservation deliverables. It is revised to reflect the conditions included in Order 01, Docket No. UE-111881, which does not address sections A-J and section L of the 2010 EIA Settlement Agreement (UE-100177). These deliverables are still in force. Effective June, 2013, natural gas-specific requirements enumerated in Exhibit F of Docket No. UG-011571 are also included. Thus, this document is no longer an electric-specific checklist.
- Unless provided in a specific condition, when documentation is provided to the CRAG for review or comment---that doesn't have a specified review period---PSE will provide 30 calendar days---that takes into account very full demands on CRAG members' time--before it classifies a deliverable as "completed". Draft filing documents will have a review period of 60 days prior to the proposed effective date, per the applicable condition(s).
- If the condition doesn't indicate a specific CRAG deliverable ("review", "comment", "advise", etc.,) the condition is considered met when the document, calculation, report, etc., is filed or submitted.
- If the condition indicates that PSE must perform some task "if" a change is requested (for instance, condition (7)(d)(ii)), and there is no such change requested, the compliance status will be checked "completed".
- As PSE has consistently demonstrated over the past several years, we will respond to requests for details not already contained in provided fillings, reports or analyses, regardless of elapsed time, while maintaining the completed status of a condition.

  • PSE considers the Annual and Biennial Conservation Plans "tariff filings" for purposes of condition compliance.

|-----------------------------------|--|-----------|--|---|---|
| (11)(c)                           | Recovery for Each Customer Class — The Company shall retain existing Rider mechanisms, subject to the Commission's Order in Docket UE-970686.  | Review    | PSE provides the CRAG its cost allocation methodology     Issues relative to Schedule 258 apportionments have been identified for resolution.  | Ongoing business<br>practiceno specific<br>target deliverable date. | <b>✓</b>  |
| (12)                              | Additional Committments  |           |  |   |   |
| (12)(a)                           | In accordance with RCW 34.05.240 and WAC 480-07-930, PSE will file a petition for a declaratory order with the Commission by July 6, 2012 concerning whether capital investments in electric power production turbines that increase the efficiency of electric power production are considered part of the requirement in RCW 19.285.040(1), which states: "Each qualifying utility shall pursue all available conservation that is cost-effective, reliable and feasible." If the Commission determines that such capital investments in electric power production turbines fall within the requirements of RCW 19.285.040(1), then PSE will analyze whether such conservation is feasible, achievable, and cost-effective prior to filing its 2014-2015 biennial conservation target. |           | The motion is filed.   | 07/06/12  | <b>✓</b>  |

|-----------------------------------|--|--------------------------|---|--------------------------------|---|
| (12)(b)                           | PSE will review and consider the feasibility of pursuing cost-effective conservation in the form of reduction in electric power consumption resulting from increases in the efficiency of energy use at electric power production facilities it owns in whole or in part outside the boundaries of Washington State, and report back to the CRAG on the status by September 1, 2012. The term feasibility may include, but is not limited to: economic reasonableness; contractual obligations or limitations; traiff schedule limitations; legal limitations; rule limitations; cost-recovery limitations; financial limitations; practical limitations; operational limitations; cost-recovery limitations; financial limitations; practical limitations or considerations and are a result or a combination of interactions between or among these noted limitations and considerations (e.g. the impact of operational limitations on legal limitations). PSE shall work with the CRAG to identify options for overcoming obstacles to the feasibility of pursuing cost-effective conservation in the form of reduction in electric power consumption resulting from increases in the efficiency of energy use at electric power production facilities that PSE owns in whole or in part outside the boundaries of Washington State, prior to filing its 2014-2015 biennial conservation target. |                          | When the report is provided on September 1, 2012.   | October 1,2013 CRAG<br>meeting | <b>✓</b>  |
| L(22)                             | The Executing Parties agree to support the terms and conditions of this Agreement, as described above. The Executing Parties understand that this Agreement is subject to Commission approval.   | No CRAG<br>specific role |   |                                | Explanation only<br>No deliverable  |
| L(23)                             | The Executing Parties have negotiated this Agreement as an integrated document. Accordingly, the Executing Parties agree to recommend that the Commission adopt this Agreement in its entirety.  | No CRAG<br>specific role |   |                                | Explanation only<br>No deliverable  |
| L(24)                             | This Agreement represents a fully negotiated agreement. Each Executing Party has been afforded the opportunity, which it has exercised, to review the terms of the Agreement. Each Party has been afforded the opportunity, which it has exercised, to consult with legal counsel of its choice concerning such terms and their implications. The Agreement shall not be construed for or against any Executing Party based on the principle that ambiguities are construed against the drafter.   | No CRAG<br>specific role |   |                                | Explanation only<br>No deliverable  |
