BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

DOCKET NO. UE-10 0467

DOCKET NO. UG-10 0468

DIRECT TESTIMONY OF

ELIZABETH M. ANDREWS

REPRESENTING AVISTA CORPORATION

# I. INTRODUCTION Q. Please state your name, business address, and present position with Avista Corporation.

A. My name is Elizabeth M. Andrews. I am employed by Avista Corporation as

Manager of Revenue Requirements in the State and Federal Regulation Department. My

business address is 1411 East Mission, Spokane, Washington.

#### Q. Would you please describe your education and business experience?

A. I am a 1990 graduate of Eastern Washington University with a Bachelor of Arts Degree in Business Administration, majoring in Accounting. That same year, I passed the November Certified Public Accountant exam, earning my CPA License in August 1991<sup>1</sup>. I worked for Lemaster & Daniels, CPAs from 1990 to 1993, before joining the Company in August 1993. I served in various positions within the sections of the Finance Department, including General Ledger Accountant and Systems Support Analyst until 2000. In 2000, I was hired into the State and Federal Regulation Department as a Regulatory Analyst until my promotion to Manager of Revenue Requirements in early 2007. I have also attended several utility accounting, ratemaking and leadership courses.

### Q. As Manager of Revenue Requirements, what are your responsibilities?

A. As Manager of Revenue Requirements, aside from special projects, I am responsible for the preparation of normalized revenue requirement and pro forma studies for the various jurisdictions in which the Company provides utility services. During the last nine and

A. Page 6 starts with the adjustment in column (h), **Customer Advances**, which decreases rate base for money advanced by customers for line extensions, as they will be recorded as contributions in aid of construction at some future time. The effect on Washington rate base is a decrease of \$257,000.

The adjustment in column (i), **Customer Deposits**, deducts from electric rate base the average-of-monthly-averages of customer deposits held by the Company, as ordered by this Commission in Docket UE-090134. The corresponding interest paid on customer deposits is reclassified to utility operating expense, at the current WUTC interest rate of .33%. The effect on Washington rate base is a decrease of \$3,060,000. The effect on Washington net operating income is a decrease of \$6,000.

The adjustment in column (j), **Settlement Exchange Power**, reflects the rate base associated with the recovery of 64.1% of the Company's investment in Settlement Exchange Power. The 64.1% recovery level was approved by the Commission's second Supplemental Order in Cause No. U-86-99 dated February 24, 1987. Amortization expense and deferred FIT expense recorded during the test period are reflected in results of operations. The rate base adjustment and accumulated deferred FIT reflects the average-of-monthly-averages amount for the 2011 rate period. The effect on Washington rate base is an increase of \$16,412,000.

The adjustment in column (k), **Restating CDA Settlement**, adjusts the 2009 test period AMA net asset and DFIT balances related to the 2008/2009 CDA Tribe Settlement payments

(Past Storage/§10(e)) and deferred costs to a 2011 AMA basis. In addition, this adjustment includes the 2011 AMA net asset and DFIT balance for the 2010 Past Storage/§10e settlement payment of \$4 million. The expense portion of this adjustment includes the annual amortization of the net total asset (\$41.6 million (system) of payments and deferred costs) and the annual

\$400,000 (system) future storage §10(e) payment.

The agreed upon settlement and payments included in this adjustment were approved by the Commission in the Company's 2008 electric general rate case proceeding, Docket No. UE-080416. As approved by the Commission's Order (See Order No. 08), in Docket No. UE-080416, the Company was allowed to defer the amortization of the settlement payments, which included the system payments of \$25.0 million in December 2008, \$10.0 million in 2009 and \$4.0 million in 2010 for resolution of the past trespass and \$10(e) charges, and the 2008 future \$10(e) annual flat payment, with a carrying charge on the deferrals and unamortized balance, for future recovery. These deferred payments, including a return on the balance, are being amortized over the average remaining life of the Spokane River - Post Falls Project, or 45 years. The future \$10(e) system payment schedule of \$400,000 flat annual payments for the first 21 years of the new Spokane River license, starting in December 2008, and \$700,000 flat annual payments for the remaining years of the license, was also approved.

During 2009, 100% of Washington's share of the amortization of the assets associated with the 2008/2009 past storage and §10(e) charges were deferred for future recovery (see adjustment (l) – "Restating CDA Settlement Deferral" below). The effect on Washington rate base is an increase of \$4,676,000 above that in the test period. The effect on Washington net operating income is a decrease of \$558,000.

The adjustment in column (l), **Restating CDA Settlement Deferral**, adjusts the 2009 net assets associated with the 2008/2009 past storage and §10(e) charges deferred for future recovery to a 2011 AMA basis, and records the annual amortization expense based on a three-year amortization. As noted above in adjustment (k) "Restating CDA Settlement," the Company was allowed to defer the amortization of the settlement payments (\$35.8 million of 2008/2009 system total payments), with a carrying charge on the deferrals and unamortized balance, for future recovery. These deferred payments, including a return on the balance, are being amortized over 45 years. Washington's share of the 2009 deferred amortization, plus interest totaled approximately \$1.55 million. The Company has proposed a three-year amortization for recovery of this amount, resulting in approximately \$506,000 of annual expense (rather than \$35,000 annually over the remaining 44-year life). The effect on Washington rate base is an increase of \$822,000. The effect on Washington net operating income is a decrease of \$329,000.

The adjustment in column (m), **Restating CDA/SRR** (Spokane River Relicensing) CDR, adjusts the 2009 net assets associated with the CDA Tribe settlement 4(e) Spokane River relicensing conditions, deferred for future recovery, to a 2011 AMA basis. The expense portion of this adjustment includes the annual amortization of the net total asset (\$12 million (system) of payments and deferred costs); amortization of the deferred balance over a three year period; and the annual \$2 million (system) of CDR payment expense.

As noted below in adjustment (n) "Restating Spokane River Relicensing," costs associated with the CDA Tribe settlement 4(e) relicensing conditions, with a carrying charge on the deferrals and unamortized balance, were deferred for future recovery. These deferred payments, including a return on the balance, were originally planned to be amortized over the life

- of the license, or 50 years. Washington's share of the 2009 deferred amortization, plus interest totaled approximately \$112,700. The Company has included a three-year amortization for recovery of this amount, resulting in approximately \$36,000 of annual expense (rather than \$2,300 annually over the remaining 50-year life). The effect on Washington rate base is an increase of \$3,746,000. The effect on Washington net operating income is a decrease of \$951,000.
  - Q. Please turn to page 7 and explain the adjustments shown there.
  - A. Page 7 starts with the adjustment in column (n), Restating Spokane River Relicensing, which adjusts the 2009 AMA test period net asset and DFIT balances related to the Spokane River relicensing costs to a 2011 AMA basis, and records the annual amortization expense based on a 50-year amortization. In June 2009, Avista received its 50 year FERC-issued license for the Spokane River Project, at which time the costs of these efforts were transferred to intangible plant. Costs associated with this effort included actual life-to-date expenditures from April 2001 through June 30, 2009. The total of these costs were reviewed and approved over the Company's two previous general electric rate case proceedings, Docket Nos. UE-080416 and UE-090134. The Company was allowed to defer the amortization of the licensing costs, costs associated with the CDA Tribe settlement 4(e) relicensing conditions and the associated Program, Enhancement & Mitigation (PM&E) charges, including a carrying charge on these amounts, until rates went into effect January 1, 2010. These deferred payments, including a return on the balance, were originally planned to be amortized over the life of the license, or 50 years. During 2009, Washington's share of the amortization of the assets associated with the licensing costs and 4(e) payments for the period June through December were deferred for future

21

recovery (see adjustment o – "Restating Spokane River Deferral" and adjustment m – "Restating CDA/SRR CDR Fund"). The Company also spent approximately \$725,400 on PM&E costs in 2009; deferring 100% of Washington's share, including interest, for future recovery (see adjustment p – "Restating Spokane River PM&E Deferral"). The effect on Washington rate base is an increase of \$7,271,000 above that in the test period. The effect on Washington net

The adjustment in column (o), **Restating Spokane River Deferral**, adjusts the 2009 net asset and DFIT balances related to the Spokane River deferred relicensing costs to a 2011 AMA basis, and records the annual amortization expense based on a three-year amortization. As noted above in adjustment (n) "Restating Spokane River Relicensing," the Company was allowed to defer the amortization of the licensing costs and costs associated with the CDA Tribe settlement 4(e) relicensing conditions, including a carrying charge on these amounts, for future recovery. Washington's share of the 2009 deferred amortization, plus interest for the period July though December totaled approximately \$743,200. These deferred payments, including a return on the balance, were originally planned to be amortized over the life of the license, or 50 years. However, the Company has included a three-year amortization for recovery of this amount, resulting in approximately \$243,000 of annual expense (rather than \$15,000 annually over the remaining 50-year life). The effect on Washington rate base is an increase of \$395,000. The effect on Washington net operating income is a decrease of \$158,000.

The adjustment in column (p), **Restating Spokane River PM&E Deferral**, adjusts the 2009 net asset and DFIT balances related to the Spokane River deferred PM&E costs to a 2011 AMA basis, and records the annual amortization expense based on a three-year amortization. As

operating income is a decrease of \$242,000.

21

noted above in adjustment (n) "Restating Spokane River Relicensing," the Company was allowed to defer the Spokane River deferred PM&E charges, including a carrying charge on these amounts, for future recovery. Washington's share of the 2009 deferred PM&E costs, plus interest, totaled approximately \$471,900. The Company has included a three-year amortization for recovery of this amount, resulting in approximately \$154,000 of annual expense. The effect on Washington rate base is an increase of \$250,000. The effect on Washington net operating income is a decrease of \$100,000.

Included within my workpapers provided with the Company's filing is the detail for each of the adjustments (k) through (p) described above.

The adjustment in column (q), **Restating Montana Riverbed Lease**, includes the costs associated with the Montana Riverbed lease settlement. In this settlement, the Company agreed to pay the State of Montana \$4.0 million annually beginning in 2007, with annual inflation adjustments, for a 10-year period for leasing the riverbed under the Noxon Rapids Project and the Montana portion of the Cabinet Gorge Project. The first two annual payments were deferred by Avista as approved in Docket No. UE-072131. In Docket No. UE-080416 (see Order No. 08), the Commission approved the Company's accounting treatment of the deferred payments, including accrued interest, to be amortized over the remaining eight years of the agreement starting on January 1, 2009. This restating adjustment includes one-eighth of the deferred balance amortization and the increase in the annual lease payment expense for the additional annual inflation. This adjustment decreases Washington net operating income by \$53,000 and increases rate base by \$2,419,000.

The next column marked by a dash, entitled **Subtotal Actual** represents actual operating results and rate base plus standard rate base adjustments that are included in Commission Basis reporting, plus additional restating adjustments required to annualize previous approved rate base items.

#### Q. Please turn to page 8 and explain the adjustments shown there.

A. Page 8 starts with the adjustment in column (r), Eliminate B & O Taxes, that eliminates the revenues and expenses associated with local business and occupation (B & O) taxes, which the Company passes through to its Washington customers. The adjustment eliminates any timing mismatch that exists between the revenues and expenses by eliminating the revenues and expenses in their entirety. B & O taxes are passed through on a separate schedule, which is not part of this proceeding. The effect of this adjustment is to decrease Washington net operating income by \$36,000.

The adjustment in column (s), **Property Tax**, restates the test period accrued levels of property taxes to the most current information available and eliminates any adjustments related to the prior year. This adjustment also annualizes the increase in property taxes effective July 1, 2009, related to the Company's Coyote Springs plant located in Oregon. Prior to July 1, 2009, the Company had been exempted from this property tax assessment for five years under a tax abatement as a result of the plant being located in the Columbia River Enterprise Zone in Oregon. The effect of this adjustment decreases Washington net operating income by \$1,194,000.

EXHIBIT NO. \_\_\_(JHS-1T)
DOCKET NO. UE-09\_\_\_/UG-09\_\_
2009 PSE GENERAL RATE CASE
WITNESS: JOHN H. STORY

## BEFORE THE WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION

WASHINGTON UTILITIES AND TRANSPORTATION COMMISSION,

Complainant,

**v.** 

Docket No. UE-09\_\_\_\_ Docket No. UG-09

PUGET SOUND ENERGY, INC.,

Respondent.

PREFILED DIRECT TESTIMONY (NONCONFIDENTIAL) OF JOHN H. STORY ON BEHALF OF PUGET SOUND ENERGY, INC.

MAY 8, 2009

of IEEE storm expense that would have to be incurred prior to the Company requesting deferral of IEEE related storm costs.

As in prior general rate cases, the second part of the Storm Damage adjustment amortizes the costs related to catastrophic storms that have been deferred. The deferred costs associated with catastrophic storms (except for the December 13, 2006 wind storm), which total \$33.5 million, are amortized over four years. This is the same deferral period used by the Company in the 2007 general rate case for these types of catastrophic storm deferrals. The remaining portion of the December 13, 2006 wind storm deferral will be \$68.3 million at the start of the rate year. This storm cost is being amortized over 103 months, which is the number of months remaining at the beginning of the rate year from the original amortization period of ten years that began November 1, 2008, as approved in the Company's 2007 general rate case.

The effect of this adjustment is to decrease net operating income by \$6,176,024.

#### 4.31 Regulatory Assets

This pro forma adjustment adjusts the production related regulatory assets, net of deferred federal income taxes, to their projected rate year average of the monthly averages balances. This adjustment calculates the regulatory assets and liabilities associated with production plant based on their projected rate year balances as agreed to in the PCA Settlement from the 2001 general rate case. On line 33 of

Prefiled Direct Testimony (Nonconfidential) of John H. Story

Exhibit No. \_\_\_(JHS-1T)
Page 49 of 76

this adjustment the Tenaska regulatory asset amortization is shown separately because this part of the amortization is considered flow through for tax purposes.

In the original proceeding associated with the buy down of the Tenaska fuel prices, Docket UE-971619, the principal buy down amount of \$215 million was treated as a flow through item for rate recovery. Because the IRS would only allow a straight-line amortization of the \$215 million over 15 years, the customer receives the tax benefit associated with this tax amortization and not the book amortization actually recorded for the \$215 million. In the Federal Income Tax Adjustment (Page 4.04), the test year amortization, \$23.5 million, is removed and the tax amortization, \$14.3 million, is treated as a tax deduction. In this adjustment the increase in amortization between the rate year amortization, \$32.3 million, and the test year amortization, \$23.5 million, is treated as non-tax deductible.

The estimated proceeds of the sale of the White River water rights are also shown on this adjustment as a credit against the White River regulatory assets. The White River assets and liabilities will be offset against each other when the sale of the rest of the White River properties has been completed, as directed by the Commission in Docket No. UE-032043. The remaining balance of the White River assets will then be allocated to rates in a future proceeding. Please see the prefiled direct testimony of Mr. Paul K. Wetherbee, Exhibit No. \_\_\_(PKW-1T), for a more in-depth discussion of White River.

Besides the White River proceeds discussed above, the new regulatory assets and liabilities since the prior general rate case are:

- 1. Colstrip Settlement UE-080900 Lines 12 and 28 this restating adjustment removes a \$10.7 million settlement payment charged to production O&M during the test year and replaces it with a regulatory asset as requested in the accounting petition filed May 22, 2008, Docket No. UE-080900. This accounting petition has not come before the Commission as of the filing date for this proceeding. In this adjustment, interest is accrued on the regulatory asset from August 2008, which is the date of the payment through the beginning of the rate year. The resulting balance is then amortized over sixty months as requested in the petition. The average of the monthly averages as of the rate year for this regulatory asset (net of deferred FIT), which totals \$7,142,281, increases ratebase. Annual amortization expense of \$2,487,877 is based on the five-year amortization period requested in the accounting petition. This results in a reduction of operating expense of \$7,999,283, which is included in production O&M. See the prefiled direct testimony of Mr. Michael L. Jones, Exhibit No. (MLJ-1T) and Exhibit No. (MLJ-4) for a more detailed discussion of the Colstrip settlement.
- 2. Westcoast Pipeline Capacity Payment UE-082013 Lines 13 and 29 this adjustment relates to a deferred credit for a \$3.5 million payment from FB

Prefiled Direct Testimony (Nonconfidential) of John H. Story

Exhibit No. (JHS-1T) Page 51 of 76

Energy Canada Corp. ("FB Energy") for PSE's assumption of FB Energy's contractual benefits and obligations related to additional natural gas transportation capacity on the Westcoast Energy Inc ("Westcoast") pipeline. PSE will take over the transportation capacity on November 1, 2009. The amount of the reduction to ratebase of \$1,347,150 was determined by amortizing the deferred credit commencing November 1, 2009 over the life of the capacity contract of nine years and then comparing the rate year average of the monthly averages balance net of deferred federal income tax to the test year average of the monthly averages balance. Adjusting for the annual amortization benefit based on the 9 year contract period decreases operating expense by \$392,150. This adjustment is made to fuel expense to offset the cost of the capacity charge as was requested in an accounting petition in Docket No. UE-082013. See the prefiled direct testimony of Mr. R. Clay Riding, Exhibit No. (RCR-1CT) for a more detailed discussion of the Westcoast pipeline capacity. This adjustment is done in the same manner as requested in the accounting petition filed November 6, 2008 in Docket No. UE-082013. This accounting petition has not come before the Commission as of the filing for this proceeding.

3. Over Recovery of Major Maintenance – Lines 14 and 30 – As discussed above under Adjustment 4.03 Power Costs, PSE is proposing to recover

Prefiled Direct Testimony (Nonconfidential) of John H. Story Exhibit No. \_\_\_(JHS-1T)
Page 52 of 76

18

the costs of major maintenance in a different manner than has been authorized in prior proceedings. This pro forma adjustment adds a deferred credit to ratebase for the estimated amount of over collection of major maintenance costs from July 2002 until the beginning of the rate year as calculated under the old maintenance recovery method. This amount was determined by comparing actual major maintenance expenditures to the amount set in rates for equivalent types of costs. The amount of the original deferred credit as of the beginning of the rate year is estimated to be \$5.7 million and will be trued up during the course of this proceeding. The adjustment assumes return of the deferred credit through amortization to other operating expense over three years. The result of this adjustment is to decrease ratebase for the rate year average of the monthly averages balance of the deferred credit net of accumulated amortization in the amount of \$4,765,665. Including the annual amortization benefit decreases other operating expense by \$1,906,266.

All amounts discussed above are pre-tax and are before the application of the production adjustment.

The effect of all of these adjustments is to decrease net operating income by \$5,037,666 and decrease ratebase by \$105,246,429.

DIRECT TESTIMONY OF PAUL M. WRIGLEY

October 2006

| 1   | Q.   | Please state your name, business address and present position with                  |
|-----|------|---|
| 2 - |      | PacifiCorp (the Company).   |
| 3   | A.   | My name is Paul M. Wrigley. My business address is 825 NE Multnomah St.,            |
| 4   |      | Suite 2000, Portland, OR 97232. My present position is Director of Regulatory       |
| 5   |      | Strategy and Multi-State Process (MSP) in the Regulation Department.                |
| 6   | Qual | ifications  |
| 7   | Q.   | Please briefly describe your education and business experience.                     |
| 8   | A.   | I graduated from Westfield College, London University in 1974 with a B.S. in        |
| 9   |      | Mathematics. In addition, I received a M.S. in Probability & Statistics from        |
| 10  |      | Sheffield University in 1975. From 1975 to 1977, I undertook post-graduate          |
| 11  |      | research at Sheffield University. From 1977 to 1980 I was employed as a             |
| 12  | •    | Statistician in local government in the United Kingdom. I joined the Company in     |
| 13  |      | the Load Forecasting section in 1981 and progressed through various positions in    |
| 14  |      | the area of forecasting. I joined the Regulation Department in 1995 and assumed     |
| 15  |      | my present position in April of 2006.   |
| 16  | Q.   | What are your responsibilities?   |
| 17  | A.   | My primary responsibilities include the calculation and reporting of the            |
| 18  |      | Company's regulated earnings or revenue requirement and the explanation of          |
| 19  |      | those calculations to regulators in the jurisdictions in which PacifiCorp operates. |
| 20  | Purp | ose of Testimony  |

Operations Report for the test period (the twelve months ended March 31, 2006).

The purpose of my testimony is to present the Company's Washington Results of

What is the purpose of your testimony in this proceeding?

21

Q.

A.

| 1  | an unrelated third party. The amount of the cash transfer was \$43 million. In the  |
|----|---|
| 2  | 2005 Rate Case, the Commission directed that the transaction be treated as a sale   |
| 3  | of part of the benefits associated with the property and that the cash receipts be  |
| 4  | amortized over the life of the assets. The gain will be amortized over 30 years     |
| 5  | (the composite book life of the plant) with a rate base deduction for the           |
| 6  | unamortized balance.  |
| 7  | Flow-Through Deferred Tax (Adjustment 7.5) – This adjustment removes the            |
| 8  | deferred tax expenses and related year-end accumulated deferred tax balances for    |
| 9  | all items that are not related to the life and method differences between book and  |
| 10 | tax depreciation. This in effect flows through to income the current tax impacts    |
| 11 | on these items. This is the treatment allowed under the Settlement Agreement        |
| 12 | adopted by the Commission in Docket No. UE-032065.                                  |
| 13 | WA IRS Settlement Amortization Adjustment (Adjustment 7.6) – In FY 2003,            |
| 14 | PacifiCorp made settlement payments to the IRS totaling \$64,217,849. In            |
| 15 | accordance with the Settlement Agreement adopted in Docket No. UE-032065,           |
| 16 | 50 percent of Washington's portion of these costs was allowed in rates. Inasmuch    |
| 17 | as there were no findings on this issue in the 2005 Rate Case, this adjustment adds |
| 18 | the unamortized balance of payments to rate base – which will be amortized over     |
| 19 | a 5-year period – as well as the annual amortization expense, beginning the         |
| 20 | effective date of the Settlement Agreement (November 2004).                         |
| 21 | Year-End Deferred Tax Adjustment (Adjustment 7.7) – In Cause Nos. U-86-02           |
| 22 | and U-84-65, the Commission ordered that deferred taxes be included in rate base    |
| 23 | at the year-end level rather than the thirteen-month average balance used for other |

| 1               | deferred debits, Accounts 182M and 186M, based on the order in the 2005 Rate         |
|-----------------|--|
| 2               | Case.  |
| 3               | Jim Bridger Mine (Adjustment 8.3) – PacifiCorp owns a two-thirds interest in         |
| 4               | the Bridger Coal Company, which supplies coal to the Jim Bridger Generating          |
| 5               | Plant. The Company's investment in Bridger Coal Company is recorded on the           |
| 6               | books of Pacific Minerals, Inc. (PMI). Because of this ownership arrangement,        |
| 7               | the coal mine investment is not included in electric plant in service. The           |
| 8               | normalized coal costs for Bridger Coal Company include the operating and             |
| 9               | maintenance costs of mining, but provide no return on investment. This               |
| 10              | adjustment is therefore necessary to properly reflect the Bridger Coal Company       |
| 11              | investment in test period rate base.   |
| 12              | Grid West Loan (Adjustment 8.4) – This adjustment includes the rate base,            |
| 13              | expenses and taxes associated with the Grid West loan. The accounting treatment      |
| 14              | of this loan was approved by the Commission in Docket No. UE-060703 and the          |
| 15              | Company is requesting similar rate making treatment in this proceeding.              |
| 16              | North Umpqua Relicensing Settlement Obligations (Adjustment 8.5) – The               |
| 17 <sup>-</sup> | Company is required to make various cash payments as a result of agreements          |
| 18              | with intervening parties while relicensing its North Umpqua hydroelectric            |
| 19              | facilities with the Federal Energy Regulatory Commission. The accrual                |
| 20              | accounting entries for the assets, liabilities, and accumulated amortization related |
| 21              | to the hydro relicensing settlements have been removed from results starting in      |
| 22              | April 2005. The beginning balances and the amortization expenses, however,           |
| 23              | remain and are removed in this adjustment. The effect of this adjustment is to       |
