Subject: Broadband Dynamics: Emergency Contact Information request

Kim,
RE: UT-072149

Thank you for the response to the commission's request. A list of those people in your company responsible for outages and emergency coordination is appropriate. As you are a non-facilities based reseller-the underlying carrier is responsible for infrastructure thus your primary outage contact within your company is sufficient.

Thank you,
Rebecca Beaton/WUTC/360.664.1287

Subject: Emergency Contact Information request

Hello Ms. Beaton,

We are in receipt of a letter from Washington UTC dated 11/13/07 regarding Emergency Contact Information - Docket UT-072149.

We are a non-facilities based reseller of long distance located in Arizona providing services to Washington customers. We are attempting to comply with the UTC's request for Emergency Contact Information and have a couple of questions:

In what format does the UTC need this info?

The rule states "upon request of the commission, the company's current plans for emergency operation..."

is this info also needed at this time?

Thank you for your assistance.
