I am a PSE
Rate payer

I am not being paid
to be here today

Re: PSE Rate Case

Docket #'s UE-160918 and
UG-160919

I have a short remark to make today,
to give more time to the next person.

I just want to ~~say~~ request that the Commission
not allow PSE to put in a gas-fired electricity
generating plant as an emergency plan. If
this is allowed, we may well see it become their
Plan A, with no oversight.
