REQUEST:

Refer to 24:16-18. Relative to the 90%/10% split currently recorded on the Company's books, how much would director fee expenses be decreased if Avista reflected a 50% Utility / 50% non-utility split?

RESPONSE:

The reduction from expenses included in the test year would be \$293,329 WA Electric and \$84,992 WA Gas if the Company included a 50%/50% split for director fees. (Approximately \$308,000 WA Electric and \$89,000 WA Natural gas revenue requirement.)
