

Judge Wallis asked that I request additional information:

Information supplied by Mr. Spinks earlier today (late-filed exhibit 605) appears to indicate that the Seattle Foundation took possession of \$2 million and distributed \$2,034,000. One may conclude from that information that the Foundation either paid for the privilege of organizing and assisting the Commission, or some other factor was present. Perhaps that other factor was interest received on the cash pending distribution.

Can Mr. Spinks (or another of the parties) provide that information, as a supplement to the exhibit, please?

Thank you.
