Re: TracFone Wireless, Inc., Docket No. UT-093012

Dear Mr. Danner:

By this letter, TracFone Wireless, Inc. (“TracFone”), a wireless provider that has been designated as an Eligible Telecommunications Carrier in Washington, notifies the Commission that it will now expand its SafeLink Wireless® Lifeline offering for all customers. TracFone has not yet commenced offering Lifeline service in Washington. However, when TracFone commences offering SafeLink Wireless® Lifeline service in Washington, TracFone’s Lifeline customers in Washington will have the option to select from three monthly plans. The plans are as follows:

- 1) 250 free minutes each month, which do not carry over to the next month if unused, with texting available at a rate of one text per minute of airtime; or
- 2) 125 free minutes each month, which carry over to the following month if unused, with texting available at a rate of one text per minute of airtime; or
- 3) 68 free minutes each month, which carry over to the following month if unused, with texting available at a rate of 3 texts per each minute of airtime, plus International Long Distance calling to over 60 destinations.

All of TracFone’s SafeLink Wireless® Lifeline customers in Washington will be eligible to choose the plan that best suits their specific needs.

For over twenty-five years, the Lifeline program was created to provide low income families with access to affordable telecommunications service. In April 2008, the Federal Communications Commission (FCC) approved TracFone’s application for designation as an eligible telecommunications carrier and, in doing so, helped bridge the communications divide for low-income families. Two years later, TracFone has been designated an ETC in 32 states and has enrolled over -two million Lifeline customers nationwide. We are extremely proud of these statistics and the services we provide to these customers. We are even more proud our significant role in helping increase the penetration rate in every state where we are currently operating in.

We look forward to serving the Great State of Washington with the same cutting-edge, affordable wireless technology offerings which TracFone is known for and continue to work with this Commission in its mission to promote and expand enrollment in the Lifeline program.

Sincerely,

A handwritten signature in black ink, appearing to read "José A. Fuentes". The signature is fluid and cursive, with the first name "José" being particularly prominent.

José A. Fuentes

Director of Government Relations  
TracFone Wireless, Inc.
