DATE OF REVISED RATES - 1

Inc. and its affiliates under the prior ownership of Murrey's and was a minority owner and shareholder and officer of the company when it was purchased by Waste Connections, Inc. in 1999. In my current capacity I am responsible for preparing and submitting all rate and tariff filings affecting regulated Waste Connections solid waste collection companies in the State of Washington.

4 Attached hereto is a true and correct copy of a document demonstrating how the Companies would propose to prorate billing invoices for regulated yard waste and recycling customers of Murrey's Disposal and American Disposal in the month of October, 2013 assuming an effective date of revised rates of October 16, 2013.

5 As noted in the Motion to Amend seeking the expedited tariff effective date, the Companies estimate that authorizing the mid-month effective date would reduce the current revenue deficiency by approximately \$41,391.00.

DATED at EATONVILLE, Washington, this 7th day of October, 2013.
