**Re: Docket Nos. UE-970686 and UE-111881
2012 Annual Report of Energy Conservation Accomplishments**

Dear Mr. Danner,

Enclosed are an original and three copies of Puget Sound Energy's ("PSE" or the "Company") 2012 Annual Report of Energy Efficiency Service's program results (the "Annual Report"). Portfolio results outlined in the report indicate that 38.8 average megawatts (aMW) of electric conservation and 5.2 million therms of gas conservation were achieved during the past year. Expenditures for Customer Solutions were \$91.78 million for electric programs and \$13.65 million for gas offerings. Detailed expenditure and saving figures are provided for electric and gas conservation programs in Exhibit 1.

As has been PSE's long-standing practice with each Annual Report, the 2012 Annual Report contains several enhancements. Most are readability improvements; including new paragraph spacing and chapter notations, provide additional details, and address questions and requests PSE received from regulatory stakeholders relative to its reporting since its last report.

The entire package consists of:

- Volume 1: The 2012 Annual Report of Energy Conservation Accomplishments
- Volume 2: Exhibit 1, 2012 Expenditures and Savings
 - Supplements 1 through 4
 - Exhibit 2, 2012 Program-level Cost-Effectiveness Calculations
 - Exhibit 5, Prescriptive Measures,
 - Supplements 1 and 2
 - Exhibit 9, Condition Compliance Checklist,
 - Exhibit 10, 2012 NEEA Accomplishments, and
- Volume 3: Exhibit 6, 2012 Evaluation Studies.

Mr. David Danner, Executive Director and Secretary
