*Re: Docket U-210590, Notice of Opportunity to Comment on Commission proceeding to develop a policy statement addressing alternatives to traditional cost of service ratemaking (Phase 1 – Performance Metrics), Comments Suggesting Performance Metrics*

Dear Ms. Maxwell:

The NW Energy Coalition appreciates the opportunity to again comment on Phase 1 of the Utilities and Transportation Commission's (UTC or Commission) proceeding to develop a policy statement addressing alternatives to traditional cost of service rulemaking. The NW Energy Coalition is a public interest organization focused on ensuring clean and affordable energy for all customers, working across the Pacific Northwest.

Attached is an Excel sheet with suggested metrics for consideration. In some cases, metrics seemed to fit within multiple regulatory outcomes, which I noted in places, but it is likely that this was not comprehensive. We look forward to reviewing other suggested metrics from other parties.

Thank you for the opportunity to comment.

Best,

/s/

Amy Wheelless  
Senior Policy Associate  
NW Energy Coalition
