RE: Comments on Behalf of Kittitas Climate Action (KCA) on Puget Sound Energy's Proposal to Lower Clean Energy Targets for 2024 and 2025 (Docket UE-210795)

Greetings:

Kittitas Climate Action is a non-profit group of advocates in Kittitas County. We support Washington Clean Energy Coalition's comment letter opposing PSE's Docket UE-210795. We also support Phil Ritter and Tom Kraemer's comment letters.

We accept the science of climate change and support all Washington State's clean energy laws. Time is of the essence, and we must strive to meet our milestone goals as described by these state laws.

Sincerely,
Meghan Anderson
