Due to its historic and ongoing work with utility companies and others to achieve these goals, the Coalition possesses unique interest in the outcome of this proceeding.

D. The Coalition has a special interest in this proceeding for the following reasons: (1) Coalition members will be directly affected by rate changes and cost shifting among customer classes that

may result from this proceeding; (2) rate design modifications that occur as a result of this proceeding may affect customer investment in energy efficiency and impact low-income customers; and (3) proposed mechanisms for decoupling may affect the utility's acquisition of energy efficiency. The Coalition intends to examine these and other issues in this proceeding.

E. The Coalition offers this process considerable expertise in the area of resource planning, industry structure, and economic and policy analysis. The Coalition has participated in numerous rate cases, mergers, and resource planning proceedings in Washington, Oregon, Idaho, and Montana.

F. The Coalition has no intention of unreasonably broadening the issues, burdening the record or delaying the proceeding through its intervention.

For the foregoing reasons, the Coalition requests the Commission grant its motion to intervene in this matter.
