

Exhibit 1 Supplement 4

2019 Measure Counts Highlights by Program and Fuel Type

- All figures are intended to provide a perspective of scale and program scope; most are rounded. They aren't intended to be a precise measure count.
- Key counts below may represent either customers, projects, dwellings, or measures reported.
- Since it isn't possible to provide a representation of every measure, selected representative measures are indicated. PSE provides more comprehensive measures counts in the Annual Report program discussions.
- It is important to note that "Dwelling units receiving measures" figures represent homes, apartments, condominiums, mobile homes, etc. that reported "some" energy efficiency measure.
- In some cases "measure count" only represents the measure name, rather than each individual measure installed. For instance, "LED lamp" in Commercial Lighting may represent a single lamp or 100 of the same lamp.

Schedule	Programs	Electric		Gas		Projects with Both Electric & Gas Measures			
		Key Measure Type	Units	Key Measure Type	Units	Key Measure Type	Units		
(Excluded from the electric-only or gas-only counts)									
E/G 201	Low Income Weatherization	EE projects receiving at least one electric measure	400	EE projects receiving at least one gas measure	90				
E/G 214	Single Family Existing	Number of efficiency measures		(Excludes Thank You kits. Other Channels also install LED lamps. Those details are presented in each program discussion.)					
	Residential EE Lighting Rebate	LED Lamps	3,779,000						
		LED Fixtures & Retrofits	490,000						
	Space Heat	Air-Source Heat Pumps	1,200			Furnaces	5,600		
		Ductless Heat Pumps	1,700			Fireplaces	900		
	Water Heat	Heat Pump Water Heaters	380			Tankless Water Heater	900		
	Home Energy Assessments	Homes assessed	12,000			Homes Assessed	2,700		
	Home Appliances	Clothes Washers	1,600						
		Clothes Dryers	3,000						
		Refrigerators	900						
	Controls	Smart Thermostats	100						
	Showerheads	Electric showerheads	11,500			Natural gas showerheads	31,000		
	Weatherization (Homes heated with)	Electricity, receiving an insulation/sealing measure:	500 homes			Natural gas, receiving an insulation/sealing measure:	2,000 homes		
		Electricity, receiving a window measure:	4,600 windows			Natural gas, receiving a window measure:	8,400 windows		
	Home Energy Reports	Customers receiving reports	65,000			Customers receiving reports	81,000		
E/G 217	Multi Family Retrofit	Dwelling units receiving electric measures	29,300: 945 projects	Dwelling units receiving gas measures	2,400: 35 projects	Dwelling units receiving both gas and electric measures	1,300: 75 projects		
E/G 218	Multi Family New Construction	Dwelling units receiving electric measures	1,097: 11 projects	Dwelling units receiving gas measures	356: 2 projects	Dwelling units receiving both gas and electric measures	1,904: 12 projects
