Washington Jurisdiction
Quarterly Report for 4th Quarter 2017

NOTES

(1) The following table shows how the decoupled revenue per customer has tracked with use per customer for 2017. The year-to-date impact is higher usage and revenue from residential electric and natural gas customers resulting in rebate deferrals, but lower usage and revenues from non-residential electric and natural gas customers resulting in surcharge deferrals.

(2) The contra decoupling accounting shown on page 6 is for financial reporting purposes only. Generally Accepted Accounting Principles allow revenue recognition from alternative revenue programs up to the amount expected to be collected within 24 months following the end of the annual period in which they are recognized. Due to the 3% annual rate increase limitation a portion of the 2016 natural gas surcharge may not be fully recovered by 12/31/2018 and therefore was not recognizable as income for financial reporting purposes in 2016. The 2017 entries reflect the recognition of 2016 amounts expected to be recovered during 2019. The income statement impact of the contra decoupling deferral will be eliminated for Commission Basis reporting.

(3) The December 2017 Accumulated Deferred Income Tax Balances shown on page 4 were adjusted to the Tax Cuts and Jobs Act (TCJA) rate of 21%. The difference between the 35% rate and the 21% rate associated with Decoupling Account 283328 transferred to Excess Deferred Federal Income Tax Regulatory Liability Account 254 December 2017. Washington jurisdiction balances in this liability account will be provided to the Washington Utilities and Transportation Commission through Docket No. UE-170485 and UG-170486.
