Subject: Please route for hearing - Docket TG-030812 - Application GA-079175

I believe this application is required to go to hearing and should be route to ALD and AG's.

Ed's Disposal, Inc., filed Application GA-79175 in Docket TG-030812 for extension of authority to provide service in a portion of territory in Benton County under Solid Waste Certificate No. G-110 . Staff believes at least a portion of the authority requested overlaps territory currently held by Waste Management in Certificate No. G-237.

While we did receive a letter from Waste Management stating that it does not oppose the application, I believe RCW 81.77.040 may still require the Commission to hold a hearing before it may consider granting this application.

Please route copies of TG-030812 to ALD & AG's for hearing. Thanks!
