Contract No. 1381ICB New ___ Renewal ___ Amendment X

7(b) (iii)

Demonstrate, at a minimum, that the contract charges cover the company's cost of providing the service. Costs will be determined under a long-run incremental cost analysis, including as part of the incremental cost, the price charged by the offering company to other telecommunications companies for any essential function used to provide the service, or any other commission-approved cost method.

This is an amendment extending the term of an agreement that provides CentaNet services for a term of up to twelve (12) months and changing some prices. The attached confidential cost documentation demonstrates the contract charges cover the company's cost of providing the service.

7 (b) (iv)

Summarize the basis of the charge(s) proposed in the contract and explain the derivation of the proposed charge(s) including all cost computations involved.

The underlying costs of the individual component elements are identified in the confidential cost documentation filed with this contract. See the Amendment for the detailed list of services and rates subscribed to under the agreement.

7 (v) Indicate the basis for using a contract rather than a filed tariff for the specific service involved.

The services are offered on a contract basis due to competitive market conditions and because the negotiated prices are not available under tariff, and because the tariff requires that the SMDR and CMAC services be priced "ICB" for line counts over 200, which is this customer's present situation..
