Comments:

Hello,

My name is Colin Smith and I'm contacting you on behalf of Mr. William Massey, owner of Silver Lake Water Company located in Oak Harbor, Washington. We received your notice of the opportunity to file written comments related to your efforts to adopt new rules for water companies. This is not exactly a comment so I thought this avenue would be the best way to contact the commission and it would be routed appropriately on your end. Currently Mr. Massey is interested in exiting the business and turning over his company to another in the state would meet one of the commission's goals of consolidation of the industry. I am contacting you to ask for more information on any interests you have received from companies in the state who are looking to expand or who have shown interest in growth of its client base. I'd be especially interested if these companies were in close geographic vicinity to Oak Harbor which in turn would make more financial sense. Any current and future information on the consolidation of the privately owned water companies and major moves by them would be very helpful in our case. If you could add me to the mailing list for the Docket UW -143295 I'd appreciate that as well. Our end goal is to sell or possibly give away Silver Lake Water Company to a current company in the state which I believe would be mutually beneficial to us, the commission, and the end user. Thanks for taking the time to read over my requests and I look forward to hearing from you soon.

Best regards,

Colin Smith
