Good morning Mr. Dotson. I would like to update my Solid Waste application service area to be all of Snohomish County.

Thank you
Westside Waste LLC

Good morning Gary. If, like Barry says, you plant to simplify and just do all of Snohomish County, please send me an email saying something along the lines of, "I'd like to update my Solid Waste application's service area request to include all of Snohomish County." That's good enough for me. Barry put together a map showing all of the county, so no need to send me a new map.

Mike

Hi Mike,

I spoke with Gary, and he's decided to apply for the certificate using the boundaries of Snohomish County as the certificate boundary.

Could you contact him to let him know what he needs to resubmit to reflect the changed boundary?

Thanks,
Barry
