Subject: RE: Ridwell Complaint WUTC Docket No. TG-200083

On behalf of my client, Ridwell, Inc., we would like to request a change to the BAP date. I discussed the April 21 scheduling conflict with Mr. Callaghan earlier today, and he recommended I request the change via email request to the above-referenced individuals. If you prefer we file a more specific request via letter or motion, I am happy to do so.

My client is booked with Earth Day week sustainability events, including a pending invitation from the Governor's office during most of the week of April 20, including the scheduled date, April 21.

We have confirmed calendars and request one of the following dates for the BAP, depending on the ALJ's availability:

April 14, 15, 16, 17

April 27, 28, 29

May 1

We can be available any time on any of those dates.

Thank you for your consideration of this schedule request.
