Dear Ben,

I serve on the Equity Advisory Group representing The GSBA (www.thegsba.org). I support PSE's request for extending the Clean Energy Implementation Plan (CEIP) process to allow more time for engagement and help the CEIP to better reflect community interests. The additional time for deeper reflection and analysis will provide a stronger framework in order to achieve a truly inclusive, equitable and successful implementation plan that will reach ALL communities in a more impactful way.

Thank you,

Jenny Harding (she/her)

Ben,

I serve on the Equity Advisory Group representing HopeSource and so appreciate your time at Monday's meeting. It's becoming increasingly evident as I talk with other group members that there is very much a need to slow the process down so we can engage in meaningful discussions and give PSE the feedback and recommendations you are seeking. I am very much in support of PSE's request for extending the Clean Energy Implementation Plan (CEIP) process to allow more time for engagement and to help the CEIP better reflect community interests and needs. Thank you for filing the petition for the extension.

Best regards,

Kate Sander
