

PSE 2025 GAS AND ELECTRIC INTEGRATED RESOURCE PLAN WORK PLAN AMENDMENT

Contents

- 1. Introduction 1
- 2. Meeting timeline and topics 1

1. Introduction

This document provides an amendment to PSE’s updated Integrated Resource Plan (IRP) Work Plan Update, originally filed with the Washington Utilities and Transportation Commission (Commission) on December 15, 2023 under dockets [UE-230806](#) (electric) and [UG-230807](#) (gas). Section two shows changes PSE made to the Work Plan.

2. Meeting timeline and topics

Meetings for the 2025 IRP will be conducted remotely via Zoom and livestreamed on PSE’s [IRP YouTube channel](#) in order to improve access for members of the public. Table 1.1 below outlines key meetings and engagement opportunities for the general public through the beginning of 2025. Table 1.2 outlines key meetings for the RPAG.

Table 1.1: 2025 Public IRP meetings

Date	Topic	Participation impact
September 20, 2023	Public engagement approach	Inform, consult
October 16, 2023	2023 Biennial CEIP Update	Inform
November 6, 2023	Equity in Delivery System Planning	Inform, consult
November 15, 2023	Energy Efficiency and Demand-Side Resources	Inform, consult
December 7, 2023	Emerging Resource Alternatives: Hydrogen	Inform*
February 27, 2024	Emerging Resource Alternatives: Small Modular Nuclear and Alternative Fuels	Inform*
April 23, 2024	Resource alternatives for energy storage	Inform*
May 9, 2024	Local and regional delivery infrastructure needs	Inform*
June 6, 2024	Equity in the IRP	Inform, consult, involve
December 5, 2024	Review Draft Electric and Gas Resource Plans	Inform, consult
TBD	Commission public comment period	Consult
March 3, 2025 ¹	Final Gas and Electric Integrated Resource Plans	Inform

* These meetings are offered to build awareness around what resources will be modeled for the 2025 IRP. Individual meetings will generally be at the “inform” level, the public will be invited to provide feedback at the consult level when considering the draft resource plans.

Table 1.2: 2025 RPAG IRP meetings

Date	Topic	Participation impact
October 30, 2023	RPAG Kickoff	Inform, consult, involve
December 12, 2023	Conservation Potential Assessment (CPA) IRP scenario themes	Inform, consult, involve
January 12, 2024	Electric and gas load forecast before conservation*, Emerging Resource Assessment Overview**	*Inform, **consult and involve

¹ Originally filed as March 1, 2025

Date	Topic	Participation impact
January 17, 2024	Resource Adequacy methodology overview RPAG feedback debrief	Inform, consult
February 13, 2024	Equity in Delivery System Planning Decarbonization in the Gas and Electric IRP	Involve, collaborate
March 12, 2024	Resource Adequacy modeling and resource needs (electric) Social Cost of Green House Gas (SCGHG) modeling ²	Inform, consult
March 25, 2024	Electric Resource Alternatives: Supply-side Electric scenarios and sensitivities Regional transmission	Inform, consult
April 17, 2024 ³	Conservation Potential Assessment Results Electric vehicle forecast ⁴ Demand Response programs ⁵	Inform
May 14, 2024 ⁶	Western Resource Adequacy Program (WRAP) overview	Inform, consult
May 31, 2024 ⁷	Electric Modeling process	Inform, consult
June 12, 2024	Equity in the IRP	Inform, consult, involve
July 17, 2024 ⁸	Gas modeling process Gas scenarios Gas resource alternatives	Inform, consult
September 11, 2024 ⁹	Draft results and decision process Decarbonization Update	Inform, consult
December 6, 2024	Draft Gas and Electric Preferred Resource Plans	Inform, consult
March 6, 2025	Final Gas and Electric Integrated Resource Plans	Inform
