

I already send few emails to UTC-Liz Dijos -Please add and review them also-  
WA UTC Inquiry CAS-44740-L3P1H6 for Tony Garana CRM:0230813  
I called Liz Dijos, but was not able to reach to ask if LSN is required here, I  
need assistance in this matter. I did enough volunteered time and work for and on  
behalf of UTC-Below is the last email I sent:

Yes, I do have further questions, I hope you are not saying we are stuck for the  
lifetime, Waste Management Inc (WM) charges \$45 per month while Republic  
Services, Inc. (RSG) charges \$15 per month for more services. That is clearly an  
issue to address by the commissioner of UTC, I hope this goes up to a hearing and  
to be investigated.

Here are the numbers that tell you WM operating expenses are much less and  
profits are much more, and over the Targets, charging triple the rate for much  
less service is no brainer and should be a RED Flag for the Commissioner,  
something needs to be done ASAP, unless the commissioner positiont was created to  
protect the companies, not the citizens and the Taxpayers.  
As you MOTO says-Respect. Professionalism. Integrity. Accountability

I am provide a screenshot with my quarterly bill with weekly pickup of One  
RECYCLE CART 64/65 GAL- I use upto THREE YARD WASTE CARTS 95/96 GAL, AND one  
Garbage MINI CAN 10 GAL All year around weekly pickup with RSG

**Comments:**

Revise, investigate, develop the facts, and request a refunds to the users based  
on overcharging all these years, and open the area for bidding services and more  
competition. STOP the Monopoly and the Mafia. ASAP please.

(Tony Garana's submission)
