BY UTC WEB PORTAL

Mr. Jeff Killip
Executive Director and Secretary
Washington Utilities and Transportation Commission
P.O. Box 47250
Olympia, WA 98504-7250

Dear Mr. Killip:

Re: Docket No. UT-240058 -
Kalama Telephone Company -
Washington Universal Communications Services Program -
WAC 480-123-130 (1)(g)
CLAIM OF CONFIDENTIALITY

On behalf of Kalama Telephone Company ("Company"), accompanying this letter for filing with the Washington Utilities and Transportation Commission ("Commission") are unredacted and redacted version of the Broadband Data Collection CSV file that contains location data as of December 31, 2023. These files are intended to replace the files originally filed on February 27, 2024

Please note that Broadband Data Collection CSV file is being filed on a confidential basis pursuant to RCW 80.04.095 and WAC 480-07-160. The Company hereby asserts a claim of confidentiality with respect thereto. The basis for this claim is that the "location_id" field is subject to nondisclosure agreement with CostQuest Associates, Inc. CostQuest Associates, Inc. has waived the nondisclosure requirement to allow the Company to provide that information to the Commission only. Accordingly, in compliance with WAC 480-07-160(3)(c), unredacted and redacted versions of the CSV files are being filed. Since a CSV file does not allow for shading, none is included in the confidential file. Also, since a CSV file does allow for redaction, the confidential information has been removed from the redacted file.

Sincerely,

Rick Vitzthum
Chief Financial Officer
