

UE-152253 / Pacific Power & Light Company  
April 19, 2016  
Boise 12<sup>th</sup> Set Data Request 0117

**Boise Data Request 0117**

Refer to 6:21-7:2. Please confirm the Company's position that, even if the Commission were to consider all non-wage labor costs that have increased as well as decreased, the pension and PBOP adjustments proposed by Boise and Public Counsel would not be fully offset. If the Company cannot confirm, please explain, given the statement that such increases would only "largely offset" the Boise and Public Counsel adjustments.

**Response to Boise Data Request 0117**

If the Commission were to consider updating all non-wage labor costs from the test period to forecast 2016 costs, there would be costs that increased (medical, 401(k), and other) and costs that decreased (pension, PBOP, and other). The pension and PBOP adjustments proposed by Boise and Public Counsel would not be fully offset.
