Subject: No LNG plant in Tacoma
Date: Wednesday, February 21, 2018 11:37:37 AM

Law Makers,

I urge you to vote **NO on a LNG plant in Tacoma.**

Shut down the Colstrip Coal Plant!

We need to move as quickly as possible to 100% Renewables by 2030. That may not be soon enough to leave our planet livable.

Start building **Solar & Wind Farms** Now! A Carbon Tax on all CO2 emitters could be used to fund transitions to clean green energy future.

The future is Now!
